Richard C. Thompson
5-64

At the conclusion of his training period, Mr. Hince said he was above average in intelligence, he was enthusiastic and conscientious, his principal defect was that he tried to impress one with his intelligence and knowledge, and he had been described as over-confident. He was employed as a clerk in the U. S. Consulate, Stuttgart, Germany, for one and one-half years and prior to that he studied in a German University for 6 months.

On 3/31/41 he was assigned to Los Angeles. On 5/20/41 SAC Hood said he had been engaged on a surveillance and investigating German espionage activities, he had shown a fair knowledge of Bureau work and a very willing and commendable attitude, he was pleasant, performed considerable amount of overtime, he appeared to possess a good mind and learned quickly, he had accepted responsibility in connection with his work, and he had shown a good knowledge of the German language and the translations made by him had been found to be accurate.

On 10/1/41 SAC Hood said he had indicated he possessed judgment, intelligence and ability to work out problems for himself, he was matured, possessed poise and it was believed that he would develop into a better than average Agent. On 11/1/41 he was reallocated to Grade CAF-10, \$3500 per annum. On 3/31/42 SAC Hood rated him as VERY GOOD and said his knowledge of the German language was excellent, he possessed a good all-around knowledge of all subjects and an average knowledge of the Bureau's work, he was quiet and unassuming and worked rather well on his own responsibility, he was dependable and possessed good conservative judgment, his investigative ability was good, his dictation, while slightly slow, was good and he expressed himself well, and his reports read better than average.

Mr. Hendon interviewed this Agent during In-Service Training School in September, 1942, and said he made a good appearance, he was rather young, however, and immature in his manner, he was of average intelligence or slightly better, and he had some tendency toward adopting a profound manner which would probably be eliminated as he grew a little older. On 9/18/42 SAC Hood rated him as VERY GOOD and said he had a very likeable personality, he had common sense and was capable of thinking for himself, he was energetic, reliable and had a good attitude toward his work, he appeared to have the ability to make, rather than simply close, cases, he did not conclude his cases as he should, however, he had had quite a volume of work and his knowledge of the German language had necessitated his helping on various cases which had taken a considerable portion of his time, he made a satisfactory witness, and he was rated from good to excellent as a dictator. On 10/16/42 he was reallocated to Grade CAF-11, \$3800 per annum.

On 3/31/43 SAC Hood rated him as VERY GOOD and said he had been assigned almost exclusively for the past two years to German espionage and internal security cases, he had worked these cases with good success, he made a thorough interview, intelligent search, and his reports were accurate, he did good research work and had a methodical mind, he did his best work when assigned to one important case at a time, however, he had had to serve as a utility man and had been assigned to surveillances, translations, interviews, arrests and searches in numerous cases which had been assigned to other Agents, he had demonstrated some latent administrative ability, he was fairly aggressive, put in a good amount of overtime, exercised rather mature judgment, he had made a very good speech to groups of law enforcement officers, however, he could improve his speaking by overcoming a tendency he had to drop his voice and speak softly, and his prospects for further development were very good.

On 3-31-44 SAC Hood rated him as VERY GOOD and said that due to his expert knowledge of the German language and due to previous training in Germany with the State Department, he had been invaluable in handling major German cases, however, he was well suited to handle other phases of Bureau investigative work, he had a cheerful, pleasant personality, his reports required practically no supervision, his dictation was rated very good, however, it was noted that his dictation was somewhat slow and he sometimes sacrificed promptness in getting out reports to thoroughness, and it was felt he should make an effort to speed up, he was a better than average speaker, his firearms ability was above average and he could be used on dangerous assignments, he had shown resourcefulness and intelligence in handling interviews, had performed satisfactory work on physical surveillances, he had had excellent success in developing informants among German and other European refugees and he had also been of assistance to other agencies in this respect and he was particularly commended by a Special Assistant to the Attorney General for his assistance given to that official, he was a very good witness, he had average aggressiveness in handling his cases, he was completely loyal and reliable and with further general investigative experience it was felt he would be able to handle supervisory work.

During April and May, 1944, he attended a Special SIS school for training for the purpose of preparing men for assignment, if the opportunity presented itself, to follow immediately behind the invasion troops into the European theatre of war, and Mr. Ladd said he was mature, intense, intelligent, and displayed a quick understanding and it was felt he could be depended upon for such an assignment contemplated in a most competent manner.

Mr. Grassy interviewed him during In-Service in May and June, 1944, and said he made a very good personal appearance, had considerable poise, appeared mature and gave the impression of having sufficient confidence in himself, he stated that he was hoping for future service for the Bureau in that field where he could make use of his excellent knowledge of the German language and his past experience in Germany, and it was felt that with further experience he should develop at least supervisory ability.

On 8-25-44 SAC Hood rated him as EXCELLENT and said he had continued to perform highly satisfactory work on all of his assignments, his expert knowledge of the German language, coupled with his unusual familiarity with European history and political systems, had enable him to be of particular service in the national defense field, he had frequently used the various confidential Bureau techniques and was well versed in their general operation, he had very good success in developing informants, particularly among German refugees and in the motion picture industry, he had exhibited good judgment and initiative, he was resourceful and energetic, wrote exceptionally good reports, which required very little supervision, his dictation was rated as excellent, he had continued to improve in his use of firearms and could be used on dangerous assignments, he was a satisfactory speaker, he met the public well and had made several valuable contacts for the Bureau, he was completely loyal to the Bureau and thoroughly reliable, and it was felt that with more experience on general criminal assignments he should be fully able to handle administrative phases of the Bureau's work.

On 8-27-44 he was transferred to Milwaukee. On 11-8-44 SAC Johnson rated him as EXCELLENT and said he had a very good appearance and personality, he was undoubtedly above average in intelligence, initiative, and ambition, he had worked on general criminal cases with entirely satisfactory results and with promise of continued development, he was rated as excellent in dictation, he had indicated he would make a satisfactory witness, his ability in the use of firearms was considered above average and he could be used on dangerous assignments, he had indicated an unusual ability to cooperate with others, and it was felt he had strong potentialities for development in a supervisory capacity.

On 1-1-45 he was placed on a leave without pay status. By memorandum dated 1-6-45 Mr. Carson stated he had left Washington on 1-6-45 en route to Paris, France, where he would function in a liaison capacity with SHAEF and would be in constant travel status.

On 3-31-45 Mr. Carson rated him as EXCELLENT and said he presented a satisfactory personal appearance, gave the impression that he had a considerable amount of stability and poise, he had functioned very satisfactorily during the course of his present assignment, exhibiting tact, good judgment and initiative, and it was felt that he probably had good prospects for development in the Bureau's service as his experience increased.

Effective 5-16-45 he was reallocated to Grade CAF-12, \$4600 per annum.

As the result of a basic salary increase effective 7-1-45, his salary was increased to \$5180 per annum in Grade CAF-12.

On 11-19-45 Mr. Ayer rated him EXCELLENT and said he had administrative ability and it seemed probable that this Agent would develop executive talent. He was inclined to be impatient at delays and to react a little stubbornly to criticism. These characteristics had become much less marked; he was the type of agent his SAC would unhesitatingly assign to a difficult or ticklish "Special." He had the requisite imagination, enthusiasm and ability not to lose sight of his objectives to carry out his assignment.

By memorandum dated 11-27-45 the SAC at Milwaukee was advised that he had been relieved of his special assignment and had been assigned to the Milwaukee Division.

On 1-17-46 his SAC had listed his name as one among several who might have possibilities for development on a long range basis.

On 3-31-46 SAC Johnson rated him EXCELLENT and said he had had no opportunity to demonstrate supervisory ability, he undoubtedly possessed latent qualities and potentialities for development in this regard.

He attended In-Service Training from 4-8-46 to 4-19-46.

His salary in Grade 12 was increased to \$6144.60 per annum by a basic increase on 7-1-46 and a Uniform Promotion on 11-17-46.

During an Inspection of the Milwaukee Office in December, 1946, Inspector Naughten said he was likable, and poised. He was serious in his career as Bureau Agent and was working industriously to maintain an above-average record. The Inspector regarded him as reliable and trustworthy.

On 3-31-47 SAC Johnson rated him EXCELLENT. During an Inspection of the Milwaukee Office in August, 1947, Inspector Gurnea said his personality was above average and he had no difficulty selling himself. His varied assignments in the Bureau qualify him particularly for discreet assignments, and the Inspector believed he was above average.

On 3-31-48 SAC Johnson rated him EXCELLENT and said he was much above average in personality, aggressiveness, confidence, industry, as an investigator and report writer; he made a creditable witness, was above average in initiative, discharged responsibility with minimum supervision, and had a good knowledge of Bureau equipment. He was rated excellent in dictation; could handle physical surveillances; had not been assigned to a technical surveillance; it should be noted, however, that he was rather tall and this should be kept in mind in connection with physical surveillances. He had unusual industry and enthusiasm, which had made for excellent results in most of his work, especially Theft from Interstate Shipment cases; he had a good command of the German language, appeared to have a very good attitude.

Effective 5-30-48 he received a Uniform Promotion to \$6384 per annum in Grade CAF-12.

During an Inspection of the Milwaukee Office in June, 1948, Inspector Connelley said he was intelligent and direct in approach and discussion; had a very good knowledge of the Bureau's work and functions; was enthusiastic and sincere; was rated very good in dictation, and he was an entirely satisfactory employee.

As the result of a basic salary increase effective 7-11-48, his salary was increased to \$6714 per annum in Grade CAF-12.

He attended In-Service Training from 10-18-48 to 10-29-48.

During an Inspection of the Milwaukee Office in March, 1949, Inspector Naughten said he agreed with the comments of the SAC that he was above average in personality and all the regular duties of an agent. He had handled a wide variety of work, but mainly Theft from Interstate Shipment matters in which results had been very good to excellent; was rated very good in firearms, and he appeared to be in excellent physical condition.

On 3-31-49 SAC Johnson rated him EXCELLENT and said he was above average in personality, confidence, and the regular duties of an agent. He could testify creditably, discharged responsibility with minimum supervision, had a good knowledge of Bureau equipment, and was rated excellent in dictation and very good in firearms. He could handle physical surveillances; had handled a variety of work, mainly Theft from Interstate Shipment cases; had a good command of the German language, and appeared to be in very good physical condition. There had been no opportunity for him to demonstrate supervisory ability. He was available for special and general assignment.

The SAC at Milwaukee recommended that the Bureau approve Agent Thompson on 6-20-49 for Saturday duty as a relief supervisor. Bureau authority was granted to utilize the services of this agent on Saturday duties.

As the result of a basic salary increase effective 10-30-49, his salary was increased to \$6800 per annum in Grade GS-12.

Effective 11-27-49 he received a Uniform Promotion to \$7000 per annum in Grade GS-12.

On 3-31-50 SAC Hosteny rated him EXCELLENT and said he could handle dangerous assignments and could operate on a physical surveillance; his reports, memoranda and letters were considered above average; he was an excellent contact man with law enforcement officials and business contacts. He organized and initiated investigations and accepted responsibility and discharged same with a minimum of supervision. He had had experience in testifying in court and made a creditable witness. He had been assigned to general criminal and some applicant investigations. During the past year this agent developed two confidential general investigative informants for this office. He was available for special and general assignment. By the manner in which this agent handled his individual cases as well as administrative assignments given to him, he had indicated and demonstrated administrative ability.

During an Inspection of the Milwaukee Office in May, 1950, the SAC commented that he had been assigned exclusively to criminal investigations and particularly to Theft from Interstate Shipment cases. He had recently been qualified as a general police instructor; his productivity was considered above average and he had been particularly successful in making thorough investigations in Theft from Interstate Shipment cases which had resulted in successful prosecutive action. The Inspector added he was rated excellent in dictation ability. He liked Criminal cases and had done well on such assignments. Inspector Harbo said generally he concurred with the comments of the SAC.

By letter dated 6-21-50 he was cautioned as a result of two case-write-ups during the May, 1950 inspection of the Milwaukee Division. The first case was assigned to him on 2-7-50; however, as of May 23, 1950, no report had been prepared. The second case was assigned to him from July, 1949 until January 11, 1950 when it was re-assigned to another Agent and as of that date no report had been submitted. It had been noted in connection with the first case he explained that all leads had been handled with negative results. No report was submitted in the second case due to the presence of other urgent matters although investigation had been promptly undertaken. However, he was told delinquencies of this nature in the submission of investigative reports were not in accordance with Bureau standards.

It is noted that his overtime for the month of October, 1950, was 45 minutes, November 1 hour 28 minutes, December 2 hours 1 minute. The Office overtime for October was 1 hour 10 minutes, November 1 hour 24 minutes, December 1 hour 32 minutes.

By letter dated 2-3-51 he was awarded the Ten-Year Service Award Key.

On 2-13-51 SAC Hosteny rated him EXCELLENT and said the personality of this agent was considered above average; he was considered resourceful, sufficiently aggressive, dependable, thorough and possessed with an excellent attitude toward his work. He had had considerable experience in testifying in court and had made a most creditable Bureau witness; had been working almost exclusively on general criminal investigations and upon occasion on the more complicated and involved applicant investigations. Most of his time had been spent on Theft from Interstate Shipment cases. In all of his assignments he had

exhibited unusual industry, thoroughness and productivity; his investigations had been brought to a logical and successful conclusion. From the manner in which this agent handled his individual cases as well as administrative assignments, he had demonstrated administrative ability. A letter of caution was directed to him in June, 1950, as a result of an inspection in May, 1950, because of delinquencies, and since this letter of caution, he had made every effort to submit reports as promptly as possible considering the volume and complicated nature of the investigations conducted by him. By separate communication dated 2-13-51 his SAC recommended him for reallocation to Grade GS-13.

On 3-9-51 he was considered for reallocation to Grade GS-13; however, in view of the letter of caution directed to him in June, 1950, he was passed over to be reconsidered upon receipt of his 1951 annual performance report.

On 3-31-51 SAC Hosteny rated him SATISFACTORY and said that he was rated as an excellent dictator, he had demonstrated an ability to handle the more complicated investigative matters, and there appeared to be no limitation on his physical condition which would prevent him from performing duties involving arduous physical exertion and participating in raids and dangerous assignments involving the use of firearms and defensive tactics. He was rated in the upper limits of Satisfactory.

On 5-27-51 he received a Uniform Promotion to \$7200 per annum in Grade GS-12.

On 6-20-51 he again was considered for reallocation to Grade GS-13; however, it was recommended that he be passed over at this time and reconsidered at a later date.

On 7/8/51 he received a basic salary increase to \$7840 per annum in GS-12. From 9/4 to 9/15/51 he attended In-Service Training.

On 9/10/51 SAC Hosteny rated him SATISFACTORY, and said his judgment was considered excellent, he produced a good volume, his work required a minimum of supervision, his productivity was above average, he had an excellent knowledge of his duties, the rules and regulations of the Bureau and he was capable of applying his knowledge in a satisfactory manner. He had spent a great amount of his time in the development of potential criminal informants and the contacting of informants and had a thorough knowledge of this phase of the Bureau's work. He was an excellent dictator, available for general and special assignments, he had given evidence of having the average amount of administrative ability, and it was felt he was capable of performing in a satisfactory manner in a supervisory capacity.

By memorandum dated 9/20/51 his SAC was advised Agent Thompson was trained to assist on inspections.

By memorandum dated 10/16/51 his SAC was authorized to utilize the services of Agent Thompson as a Week-end Supervisor.

By memorandum dated 11-16-51 his SAC advised that in regard to this Agent's ^{low} overtime for the month of October, 1950, Thompson advised that the only

reason he had for the low amount of overtime he performed for this month was that it was due to the type of cases that was assigned to him at the time, all of which he maintained in a current status by the amount of work performed. His overtime for the month of January, 1951, was 1 hour 41 minutes, February 1 hour 42 minutes, March 59.3 minutes, April 1 hour 20 minutes, May 1 hour 26 minutes, June 1 hour 30 minutes, July 1 hour 54 minutes, August 1 hour 12 minutes, September 2 hours 29 minutes, and for October, 1951 2 hours 27 minutes. In addition to the foregoing, the SAC would like to respectfully call to the Bureau's attention that Thompson was considered one of the better agents assigned to that office. He performed in a highly satisfactory and efficient manner during the recent bank robbery cases occurring in that division, and the SAC recommended him for Grade 13 reallocation.

On 12/9/51 he was reallocated to Grade GS-13, \$8360 per annum.

By memorandum dated 12/18/51 his SAC submitted his name as having outstanding criminal investigative ability. On 11/11/52 his SAC submitted his name for consideration on a long-range basis for development.

By letter dated 3/22/52 he was commended for the exemplary work he performed relative to the apprehension of Fugitive Andries Robert Young, subject of an Interstate Transportation of Stolen Property case.

On 3/31/52 SAC Murphy rated him SATISFACTORY, and said he had served as liaison man with the Milwaukee Police Department where he had made many friends and gained much respect for the Bureau. He handled an exceptionally large volume of work, was accurate and his work required practically no supervision. He exercised good judgment, common sense and had "know how." He planned his work well and had an excellent knowledge of the Bureau's rules and regulations. He could handle the most complicated investigation. He had appeared as a witness in U. S. District Court on many occasions where he made a creditable appearance, he was an excellent dictator, he had been responsible for developing and maintaining contact with a large number of criminal informants which he had done in a creditable manner, and his SAC would not hesitate to place him in charge of any raid or dangerous assignment. He had participated in the apprehension of many fugitives and was utilized by his SAC in a large number of the major cases that had developed in that office since 10/1/51. His SAC had used him to a limited extent as relief supervisor since the SAC's arrival in the Milwaukee Office and he was confident that Agent Thompson was now ready for additional responsibility. It was understood that he was available for general and special assignment wherever his services might be needed. His daily average overtime for March, 1952, was 2 hours 32 minutes; he had no travel overtime.

By memorandum dated 4/1/52 Mr. Clegg advised Agent Thompson had assisted B. C. Brown in the inspections of the Indianapolis, Memphis and Minneapolis Offices in January and February, 1952, and advised he had a good analytical mind, he dug into his assignments with a great deal of energy and he prepared excellent memoranda. He was considered well qualified for inspection assignments.

By memorandum dated 4-28-52 his SAC was authorized to use him as a relief supervisor.

By memorandum dated 4-30-52 his SAC stated in connection with the Bureau's personnel advancement program that although available for any assignment, for the time being he would prefer remaining an investigator and accordingly it was not recommended that he be considered for advancement in view of his indicated preference.

His daily average overtime for August, 1952, was 1 hour 40 minutes; he had 06 minutes travel overtime per day.

By letter dated 10-17-52 he was COMMENDED for the important part he had in the favorable results of the White Slave Traffic Act survey made in the area of Camp McCoy, Sparta, Wisconsin. He unselfishly devoted long hours to the organization of this survey and showed particular initiative in the photographing of Subject Henry Hudson and the victims.

By memorandum dated 1-21-53 it was advised that he had assisted in the inspection of the Milwaukee Office. He was well-rounded, a mature and seasoned agent. His judgment was good and his knowledge of the functions of the Bureau very good. He was considered an excellent aide. He could function very well as an Inspector's #1 man.

By memorandum dated 2-17-53 Inspector Van Pelt advised that he had assisted in the inspection of the Minneapolis Division 1-12-53 through 1-25-53 and of the Omaha Office 1-26-53 through 2-5-53. He displayed a thorough knowledge of duties, evidenced benefits of well-rounded experience and demonstrated very sound, practical approach. He exercised above-average judgment, prepared paper work very well, functioned quite industriously and proved to be a top flight aide. He had never been a Bureau Supervisor at the Seat of Government and did not feel he was well suited to such work; however, he seemed to be a very adaptable and cooperative individual with better than average possibilities for further development in supervisory, administrative and executive duties. The Inspector recommended he be favorably considered for a supervisory position at the Seat of Government when it was possible to do so.

By memorandum dated 2-18-53 his SAC advised in connection with the Bureau's personnel advancement program that he was far above average in intelligence, exercised good judgment. He was an outstanding criminal investigator and had the ability to make contacts among all types of people. He was an aggressive, tireless investigator, handled the criminal informant program and had received some supervisory training. He had an excellent knowledge of the German language. He advised the SAC that while he felt he could do supervisory work he preferred investigative work and did not believe that he was fit-

ted by temperament to perform as a full-time supervisor. He was available for special assignment at any time his services were needed. He was in good physical condition. He was in his office of preference and would prefer to remain there. The SAC thought that he could make an excellent supervisor; however, in view of his indicated preference for investigative work and the other reasons mentioned, he was not being recommended for advancement under this program.

On 3-31-53 SAC Murphy rated him SATISFACTORY and noted that he was personable and had achieved excellent results in his contacts with the public and other law enforcement officials. His physical condition was very good. He had been assigned exclusively to the development of informants and cases lending themselves to the development of informants during the majority of the rating period. His work in this connection had been excellent and required practically no supervision. He had shown good judgment, resourcefulness and ingenuity, initiative, planning ability and accuracy and attention to pertinent detail in his investigative work. He had handled a larger than average volume of work in a most competent manner and his work required a very minimum of supervision. It was apparent that he had a thorough knowledge of the Bureau rules, regulations and policy. The SAC considered him competent to work on the most complicated investigations and to act as a leader or participant in raids and dangerous assignments. He was rated excellent in dictation. His work on occasions when he had acted as relief supervisor had indicated that he had definite administrative possibilities.

His daily average overtime for April, 1953, was 1 hour 32 minutes; he had no travel overtime.

On 6-7-53 he received a uniform promotion to \$8560 per annum in Grade GS-13.

By memorandum dated 7-20-53 his SAC listed his name as being an agent possessed of outstanding criminal investigative ability.

He attended Specialized In-Service training from 12-7 through 12-18-53.

On 3-31-54 SAC Murphy rated him SATISFACTORY and said he had handled criminal work and had directed his efforts almost exclusively to the development of Potential Criminal Informants and Criminal Informants. He had had excellent success in this field. His work as an investigator in the criminal field had been outstanding. He had dispensed in his investigations and reports resourcefulness, aggressiveness, initiative and ability to plan and follow through on the work assigned to him. His volume was well above average and his reports require only a minimum of supervision. He was capable of handling the most complicated investigations other than accounting matters. In the opinion of the SAC he was one of the top agents in the Bureau.

On 3-31-54 his SAC submitted his name in connection with the Bureau's Advancement Program and advised that he had on occasion relieved on the desk of both the SAC and the ASAC and his work there had been satisfactory although the SAC noted an apparent reluctance on his part to handle supervisory work. The SAC believed this was possibly due to an expressed desire on his part to continue in the investigative rather than supervisory field and in reviewing his overall work, it was the SAC's opinion that he was probably of more value to the Bureau as an investigator rather than in a supervisory or administrative capacity. He had indicated a preference for investigative work and for those reasons, he was not being recommended for advancement.

On 5-10-54 his SAC advised that he possessed outstanding criminal investigative ability.

Memorandum dated 7-2-54 reflected that he assisted Inspector Van Pelt in the inspection of the Minneapolis Office in June, 1954. He demonstrated good knowledge of policies and procedures, exercised sound judgment, and functioned industriously. He was quite accurate and thorough, required less than average supervision and turned out paper work of good quality. He was fully cooperative, willingly shared the extra work load and his overall performance was very satisfactory. An addendum reflected that he was available but felt he had greater aptitude for investigative and informant work than in other operations. The Inspector concurred.

On 12-5-54 he received a uniform promotion to \$8760 per annum in GS-13.

By letter dated 2-23-55 he was COMMENDED for the splendid service he rendered in connection with the successful culmination of three Bank Robbery cases in the Milwaukee Office involving John Roger Bloom.

His daily average overtime for February, 1955 was 2 hours 9 minutes.

On 3-13-55 he received a basic increase to \$9420 per annum in GS-13.

On 3-31-55 SAC Poster rated him SATISFACTORY and said he had been assigned to the criminal squad, where he had demonstrated above-average ability in planning his work and handling investigative matters assigned to him. He had exercised sound judgment, considerable initiative, and was capable of acting on his own responsibility. He was capable of handling the most complicated types of investigations. He had a sound working knowledge of the rules and procedures involved in his work. His reporting and paper work required a minimum of supervision. In comparison with other agents of that office, his production was above average. He was a qualified police instructor and had been used on a number of police schools during the rating period, where his demonstrations had been well received. On two occasions local police departments commended his presentations. He

was rated from excellent to very good in dictation.

On 3-31-55 his SAC submitted his name in connection with the Bureau's Personnel Advancement Program and advised that although he was an approved relief supervisor he felt his abilities could best be demonstrated in the investigative field and he preferred to continue in the investigative type duties.

His daily average overtime for March, 1955 was 4 hours 17 minutes.

On 4-29-55 his SAC advised that he possessed outstanding criminal investigative ability.

His daily average overtime for April, 1955 was 2 hours 37 minutes.

By memorandum dated 5-23-55 his SAC advised he was being discontinued as a relief supervisor in view of his expressed preference for investigative duties rather than administrative duties as a result of Bureau letter to the SAC dated 5-11-55 regarding his continuance as a relief supervisor.

His daily average overtime for May, 1955 was 2 hours 41 minutes; for June, 2 hours 3 minutes; for July, 4 hours 31 minutes.

Memorandum dated 7-9-55 reflected that he assisted Mr. W. W. Wood in the inspection of the Omaha Office. He had an excellent ability to probe for weaknesses and his work reflected careful consideration and planning. His paper work required less than average supervision and was accurate and concise. His over-all rating as an Inspector's Aide was excellent. He had a good knowledge of his duties as an Aide and he had a good potential for leadership. He stated that he did not desire to be considered for administrative advancement and he stated he had a preference to be assigned to investigative type work.  ESPIONAGE - R

Richard C. Thompson

65-64362-173

[redacted] since January, 1957, has furnished information concerning approaches made to him to work as a Soviet agent. In June, 1957, he traveled to Europe on Soviet instructions and in East Germany was contacted by the Soviets and instructed to return to the U. S. and obtain employment with the military. When this is accomplished, he is to address an open-code message to a mail drop in East Germany and he will thereafter be contacted in person by the Soviets. The information he has furnished and our inquiries to date suggest he is currently in contact with the Soviets for intelligence purposes. A lie detector examination on 7-11-57 indicated he was being truthful concerning his U. S. contacts but had withheld information as to previous espionage work. Our checks have disclosed a number of discrepancies in his story, some which he can explain and others which cannot be explained. If he can establish contact with the Soviets in this country he possesses excellent potential as a double agent. The only way this can be established is to obtain the employment with the military and so advise the Soviets via the mail drop.

Without our help he has been offered employment by the Army Language School, Monterey, California. We took this up with G-2, which is cognizant of this case and it has no objection to his accepting this employment. G-2 is appropriately briefing its representatives in California and suggests that San Francisco arrange liaison there.

EX-131 RECORDED 76

65-64362-173

We will now authorize Milwaukee to take the necessary steps for [redacted] to go to California and accept the employment at the Language School. To do so, he will have to terminate his Milwaukee employment and it will be necessary that we pay his travel expenses to California. It is to be noted he has insufficient funds for this purpose. Milwaukee recommends that [redacted]'s family (wife and one child) remain in Milwaukee until [redacted] is settled. It is believed that all of these steps are necessary and logical.

Milwaukee also recommends that SA Richard C. Thompson go to Monterey to introduce [redacted] to the San Francisco agent who will handle him and that SA Thompson remain there about one week until the handling of [redacted] has been successfully passed on. Ordinarily it would not be necessary to do this. However, the handling of [redacted] from the beginning has been difficult due to his European background and undoubted deep involvement in Soviet espionage prior to coming to the U. S. It is noted a considerable number of discrepancies still exist in what [redacted] has told us and there is no question but what he is concealing at least some of his past activities. Over the months SA Thompson has obtained his confidence and intimately studied his personality and character. The crucial stage of this operation is imminent. If it is to be successful, the handling of [redacted] is the key and such handling is dependent upon a complete familiarity with his character, personality, idiosyncrasies. Most of this cannot be passed on to the new agent who will handle him by letters and memoranda. It is believed the added expense is fully justified in this instance.

RECOMMENDATION:

That Milwaukee be authorized to take the necessary steps outlined above for [redacted] to proceed to California and accept the employment at the Army Language School and that SA Richard C. Thompson be authorized to travel to Monterey for about one week in order to effect the transfer of [redacted] to the San Francisco agent. A letter to Milwaukee and San Francisco containing these instructions and other operational comments is attached for approval.

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

- Rate items as follows:
- + Outstanding (exceeding excellent and deserving of special commendation).
 - E Excellent.
 - ✓ Satisfactory (good or very good).
 - Unsatisfactory.
 - O No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

1. "Outstanding" adjective rating requires (A) that all rated elements be "+" and (B) that each and every rated element be factually justified by narrative detail on reverse of Form FD-185.
2. "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
 - A. Any element rated "Unsatisfactory" must be supported by narrative comments.
 - B. An "official" adjective rating of "Unsatisfactory" must comply with the requirements described on the reverse of form FD-185.

In effecting these successful apprehensions the enterprise, team work and coordination demonstrated by participating personnel are deemed most outstanding.

Instant case has been assigned since its inception to SA JOHN A. It will be noted that it appeared essential to establish a violation of Section 51, Title 41, U. S. Code that payoff take place. Such payoff would, of course, have to effected through [redacted] At the inception of this case [redacted] appeared exceedingly nervous and unsure of himself, but this was overcome through his adept handling by SA HOLTZMAN.

The money utilized in the payoff consisted of \$500 made available by the A. C. This money was placed in two separate packets and furnished to [redacted] who retained it in his desk at his office located in a large office building on the 2nd floor at 500 W. [] office for their conference. This information was made available to SA HOLTZMAN by [] and plans for coverage were immediately set up. Pursuant to such plan, the following events took place:

SAs CLARK E. LOVRIEN and [] in Milwaukee Car 21 surveilled [] at Frenchy's and also surveilled them while they were enroute to [] office. SAs HOLTZMAN, RICHARD C. THOMPSON, [] and myself in two Bureau cars (Milwaukee cars 30 and 44) took up position on the street near 500 W. National Ave. at 6 p.m. on 10/22/58. All of the Bureau automobiles utilized were equipped with FM radio. When SAs LOVRIEN and [] advised by radio that [] had left Frenchy's in separate cars SA HOLTZMAN, using a handy talkie, entered 500 W. National Ave. proceeded to the 2nd floor, and secreted himself in a room across the hall from [] office. From Milwaukee car 44 I was in a position to view anyone entering 500 W. National Ave. and I could also observe the lights in [] office. This proved to be an excellent vantage point from which I could supervise the entire operation.

SAs THOMPSON and LOVRIEN were on foot on the street near 500 W. National Ave. and SAs [] manned the radio in Bureau vehicles 30 and 21, which vehicles were parked strategically near the vehicles belonging to []

[] entered 500 W. National Ave., proceeded to his office, and turned on the lights at approximately 7:25 p.m. [] and [] arrived and entered 500 W. National Ave. approximately 5 minutes later.

By pre-arrangements with [] he would turn out the lights in his private office, the windows of which fronted on W. National Ave., when the meeting with [] had concluded. It was further arranged with [] that if circumstances indicated it advisable he would come down the steps with [] and STRICKER at the conclusion of their conference, and he would be carrying his topcoat over his arm if the money had been given to and accepted by []. If the money were not in the latter's possession [] would be wearing his topcoat.

At approximately 9:25 p.m. I observed the lights in [] office to be extinguished, and by radio this information was

communicated to Bureau cars 21 and 30 and to SA HOLTZMAN, who received it via the handy talkie. SA HOLTZMAN heard the 3 depart [] office simultaneously and proceed toward the stairs leading to the street. He was in a position to observe without being seen that [] was carrying his topcoat over his arm. SA HOLTZMAN immediately furnished this information to Bureau cars 44, 30 and 21, while the 3 individuals were descending the flight of stairs. By radio I instructed that all SAs converge at the street in front of the entrance to building at 500 W. National Ave. and place [] under arrest. By the time the 3 individuals reached the street all participating personnel converged and placed [] and [] under arrest without incident and with no commotion. While on the street a few of the bills in possession of both [] were quickly checked against the list of the serial numbers of the money [] was to give to them and these numbers checked.

The arrest occurred at approximately 9:28 p.m. 10/22/58. [] and [] were taken immediately to the Milwaukee County Jail by SAs LOVRIEN, THOMPSON, [] and SA HOLTZMAN and myself immediately returned to [] office with [] and interviewed him concerning what had transpired during his conference with [] on that evening. At 10:10 p.m. 10/22/58 [] were arraigned before USC FLOYD E. JENKINS, EDW, Milwaukee, who set bond for each at \$1,000. The complaint, the wording of which had been formulated by discussion with the USA, EDW, on the afternoon of 10/22/58 and drawn up by USC JENKINS, also on the afternoon of that date, was signed at the Milwaukee County Jail a few minutes prior to the arraignment.

RECOMMENDATION OF INVESTIGATIVE DIVISION
(VGM:aeo)

10/29/58

This case involves payments of kickbacks to the subjects (employees of a prime Government contractor) from subcontractors for the award of subcontracts.

SAC, Milwaukee recommends a letter of commendation for the Agent to whom this case was assigned and a commendation, collectively, for other Agents who participated in the successful apprehension.

The Investigative Division does not concur with the SAC. It is not believed this case is sufficiently outstanding to merit an individual commendation and further, it has been necessary for the Bureau to furnish considerable guidance in the handling of the case. The Investigative Division, therefore, recommends one letter of commendation directed to the Milwaukee Office on the handling of this case with copies for the files of the participating Agents.

ReMitel 7/19/58 advising of the apprehension of subjects [redacted] at approximately 5:15 p.m. 7/19/58 at Presque Isle, Wis. by Sheriff FRANK UTPADEL, Bayfield County, Washburn, Wis., and Sgt. [redacted] Michigan State Police, Wakefield Station, Wakefield, Mich., and Trooper [redacted] Michigan State Police, Wakefield Station, Wakefield, Mich.

The following sequence of events in connection with captioned investigation is set forth in justification of the commendatory action recommended at the conclusion of this memo

On 6/5/58 the Milwaukee Division filed UFAP-BURGLARY complaints against captioned subjects before the USC, Milwaukee, Wis., which action was based upon burglary warrants issued by Milwaukee County, Wis. against each of the subjects. Assistance under the UFAP statute was requested by the Milwaukee PD.

On 7/11/58 a burglary was perpetrated at Delavan, Wis., and photographs of subjects were identified by individuals in that area as men who had recently stayed at a motel in that area. Officers of the Sheriff's Dept., Walworth County, Wis., developed the license number on the vehicle being utilized by subjects. The Milwaukee Division determined that subjects had purchased the vehicle to which the license number was issued in Milwaukee on 7/3/58. The vehicle was a 1949 Buick convertible, black and white in color, and was purchased in Milwaukee through an intermediary, one [redacted] with alias [redacted]. On 7/14/58 the Sheriff's Office, Forest County, Crandon, Wis., reported a burglary in that area and reportedly two men fitting the descriptions of subjects were seen in the vicinity driving a vehicle similar to above described 1949 Buick.

An all-points broadcast was made throughout the State of Wisconsin police radio, setting forth the description of the 1949 Buick, its license number, and the fact that the occupants were wanted.

Memo, Director, FBI
MI 88-1462
7/23/58

At about 1:30 a.m. 7/18/58 a local officer at Eagle River, Wis. spotted this vehicle in the Town of Eagle River. He stopped the car in the town, but one of the subjects pulled a gun and the car sped away with subjects. By radio the officer was able to summon aid of a police officer in Woodruff, Wis., the next town to the west of Eagle River on Highway 70, and he also enlisted the aid of a County Officer patrolling the area between the two towns. These officers endeavored to set up a roadblock at the intersection of U. S. Highway 51 and Wis. State Highway 70. Subjects ran the roadblock and escaped at high speed.

A chase followed with the Woodruff officer and the county officer in pursuit. At the roadblock the Woodruff officer attempted to stop subjects and fired a shotgun at their speeding vehicle. During the chase which followed a shot was fired from subjects car which glanced off the windshield of the vehicle of the pursuing Woodruff officer. Subjects, however, made good their escape and disappeared by utilizing an unknown side road approximately 20 miles north of the intersection of U. S. Highway 51 and Wis. State Highway 70.

It will be noted that the local officer in Eagle River who first recognized the subjects vehicle was Patrolman [redacted] and the County Officer patrolling Highway 70 was [redacted]. The Woodruff, Wis. officer was [redacted] and a local officer of Minocqua, Wis. was one [redacted] also present at the time effort was made to set up the roadblock.

b6
b7C

Following above described escape of subjects, a manhunt was organized in the Northern Wis. area, which area is heavily wooded, contains many lakes, and is an extensive area of rough country.

The following Milwaukee FBI Agents joined the numerous local officers in that area in connection with the manhunt:

SA [redacted]
SA ROBERT M. FAUNTLEROY
SA ALEXANDER P. LE GRAND
SA CLARK E. LOVRIEN
SA JOHN T. MC CARRIER
SA RICHARD C. THOMPSON
SA JOSEPH S. WALKER

b6
b7C

Memo, Director, FBI
MI 88-1462
7/23/58

SAs FAUNTLEROY, LOVRIEN and THOMPSON left Milwaukee by air at approximately 1 p.m. 7/18/58, arriving in the area at approximately 2:30 p.m. that date. Throughout the day and night of 7/18/58 and throughout the day of 7/19/58, until the time of apprehension, SAs and officers cruised the roads within a perimeter having a diameter of approximately 20 miles. It was felt that subjects, in all probability, would be within that perimeter. Photographs were shown extensively throughout the entire area, and in every village and town the photographs were demonstrated.

On the afternoon of 7/19/58 subjects came out of the woods and went into the yard of a resident living on Highway B just east of the Village of Presque Isle, Wis., and asked the resident for a ride into town. The resident gave them a ride to the village of Presque Isle, where they proceeded into a tavern for a drink and thereafter went into a nearby restaurant and had a meal. Inasmuch as SAs had shown photographs of subjects earlier on the day of 7/19/58 to every business establishment in the small Village of Presque Isle, subjects were recognized by the proprietor of the tavern into which they had gone for a drink. The son of the female tavern operator was acquainted with [redacted] of the Michigan State Police and had seen [redacted] with Sheriff FRANK UTPADEL previously in the day. Not seeing [redacted] at the moment, the son of the tavern proprietor advised Sheriff UTPADEL that subjects were in the restaurant. At about that time [redacted] returned and joined Sheriff UTPADEL. The two immediately proceeded to the vicinity of the restaurant and Sheriff UTPADEL, who was accompanied by his wife, had his wife go into the restaurant, make a small purchase, and determine if subjects were therein. UTPADEL's wife did so enter the restaurant, and she immediately came out, nodded her head to her husband, which was a pre-arranged signal subjects were inside.

b6
b7C

Almost as soon as Mrs. UTPADEL came out of the restaurant subjects, having finished their meal, proceeded outside. Sheriff UTPADEL had a machine gun and he took up position on one side of the door leading into the restaurant, and Sgt [redacted] took up position on the other side. As subjects came out, the officers placed them under arrest without incident, although one of the subjects was at the time armed with a .22 caliber hand weapon.

b6
b7C

Approximately one or two minutes following the apprehension, FBI Agents, who had been patrolling designated areas, appeared on the scene and subjects were turned over to the custody of these FBI Agents. It will be noted that after the arrest by Sheriff

Memo, Director, FBI
MI 88-1462
7/23/58

UTPADEL and Sgt. [] Trooper [] aided the arresting officers in securing the prisoners.

b6
b7C

Sheriff UTPADEL informed me that approximately five to ten minutes elapsed between the time that he received the tip of the presence of subjects in the restaurant and the time that the apprehension was effected. Sheriff UTPADEL was in the area with his wife primarily to have a pleasant weekend in this Northern Wis. area. He was in his personally owned vehicle and indicated that when leaving his office in Washburn, Wis. he was aware of the investigation for subjects being in progress and, accordingly, took his machine gun along just in case of emergency.

It will be further noted that the Milwaukee Division had conducted considerable investigation in the City of Milwaukee and, in fact, had developed firm information that subjects intended to make contact in Milwaukee on the weekend of 7/19/58 with []. Arrangements had been made to cover the apartment of [] in Milwaukee in an effort to apprehend subjects. Therefore, it was not possible to dispatch more SA personnel to the Northern Wis. area on 7/18/58.

b6
b7C

For the information of the Bureau, USA EDWARD G. MINOR, EDW, Milwaukee, Wis., desired that subjects be turned over to Milwaukee County authorities for prosecutive action. It will be noted further that subjects were arraigned before the USC at Wausau, Wis. on the UFAP-BURGLARY complaint at approximately 1:30 a.m. 7/20/58.

This is to advise that I have directed letters of appreciation to the heads of all of the law enforcement agencies who participated in the investigation in the Northern Wis. area. I have also directed separate commendatory communications to Sheriff FRANK UTPADEL, Sgt. [] and Trooper []

b6
b7C

It is recommended that the Bureau direct individual communications to Sheriff FRANK UTPADEL, Washburn County, Washburn, Wis., and to Sgt. [] Michigan State Police, Wakefield Station, Wakefield, Mich., commending these officers for their swift action which resulted in the apprehension of subjects.

b6
b7C

The Milwaukee indices contain no derogatory information concerning Sheriff FRANK UTPADEL or Sgt. []. The Detroit Office was furnished copies of the commendatory letters directed by me to Sgt. [] and Trooper []

b6
b7C

Memo, Director, FBI
NY 88-1462
7/23/58

It is further recommended that the Bureau commend collectively the above listed 7 SAs of the Milwaukee FBI Office for their tenacity and thoroughness in connection with the investigation in the Northern Wis. area. It will be noted that these SAs worked throughout the night of 7/18/58 and until the early morning hours of 7/20/58 without sleep. The coordination of the investigation in the Northern Wis. area was directly attributable to the efforts of Bureau SAs and had it not been for the presence of the Bureau, conceivably the numerous law enforcement officers in the Northern Wis. area would have discontinued the manhunt prior to the time of the apprehension.

Both the Milwaukee and Northern Wis. aspects of this investigation were personally supervised by me.

Recommend one general letter of commendation to Milwaukee Office with copies designated for the personnel files of the seven Agents whose names are set forth on page 2. Recommendations concerning letters of appreciation to officers being handled separately on copy of this communication.

INCENTIVE AWARD AND COMMENDATION MATTER.

By teletypes dated 4/19/58 and 4/20/58, SACs Chicago, Kansas City, Milwaukee, and Charlotte recommended agents for special recognition for work leading to location and apprehension of Leftwich. SA [redacted] Kansas City, recommended for incentive award whereas other agents recommended for commendation.

BACKGROUND:Richard C. Thompson

Leftwich escaped 10/19/54 from a North Carolina prison camp where serving 6 to 10 years for assault with a dangerous weapon involving shooting of a police officer. Lead on Leftwich obtained from checking in Kansas City with International Brotherhood of Boilermakers (IBB), under name of Ralph C. McDonald, which was name found at address where subject's wife resided from May to June, 1957, at Milwaukee. Leftwich known to be employed as welder and boilermaker. Kansas City located record for one Ralph Calvin McDonald, born 2/23/23, wife's name [redacted] residing in Chicago. Lead furnished Chicago in view of close similarity to subject's birth date, which was 2/23/22, and similarity of subject's wife's name [redacted].

RECORDED - 144

67-467502-124

Chicago agents, under supervision of SAC, in checking address furnished by Kansas City for Ralph Calvin McDonald, determined McDonald identical with subject and residing there with wife and two small children. Subject residing in Chicago since May, 1957, and employed as a welder. Apprehended without incident at 10:00 P. M. 4/18/58, at which time he admitted his identity. He was apprehended by [redacted] of INVESTIGATION.

JUSTIFICATION FOR INCENTIVE AWARD FOR SA [redacted]

SAC, Kansas City, advised case assigned to SA [redacted] who, on 4/4/58, submitted letter to Charlotte Office reflecting two previous registrations (1948 and 1950)

of subject which were located at headquarters of IBB. He then placed stop with union for subject. By memo to SAC dated 4/4/58 SA [] advised that since subject was made a Top Ten fugitive he suggested possible review of all current membership cards, totaling 125,000, for pertinent personal history data on subject. Matter under consideration when Charlotte advised Kansas City by airtel, 4/14/58, to index name of Ralph C. McDonald and consider as possible alias during any investigation.

[] considered possibility that fugitive may have registered with union under this alias, and on own initiative again contacted office manager of union, who made available about 75 registrations. Agent checked each for personal history data and from them picked the registration card of Ralph Calvin McDonald because of certain similarities, and this information was immediately furnished to ASAC Paul H. Stoddard who in turn saw to it that it was promptly relayed to SAC, Chicago, by telephone.

SAC, Kansas City, recommended SA [] for \$225 incentive award for conscientious and imaginative investigation and judgment used to develop information resulting in location and apprehension of fugitive.

BUREAU RECORD OF SA []

EOD 5/7/51. GS-12, \$7570. Over-all record satisfactory. Censured 5/7/53, placed on probation, and transferred for personal misconduct; removed from probation 9/14/53. Censured 5/11/56. Commended 9/30/57 through SAC and on 4/1/58 by Director. 11/29/57 performance rating, Excellent.

COMMENDATIONS:

Milwaukee - SAs Richard C. Thompson and Warren J. Kenney were responsible for first developing information that subject was using alias of Ralph C. McDonald. Through record check of Motor Vehicle Division, Madison, Wisconsin, by SA Arthur Baier, information developed that [] wife of subject, had transferred title to 1954 Dodge car to motor company in Milwaukee in June, 1957. Investigation that company disclosed car sale and records and disclosed possible resident address of [] a small apartment house. Extensive investigation this address by SAs Thompson and Kenney, and by process of elimination developed that former occupant using name of Ralph C. McDonald was identical with subject. These agents also developed information regarding bank account of [] and that Ralph C. McDonald departed from aforementioned apartment house without notice 6/10/57.

SAC recommended SAs Thompson and Kenney for commendation.

Memorandum to Mr. Mohr

Charlotte - Case assigned to SA Horace S. Hallett since subject designated as IO fugitive. Hallett has coordinated case since that time and by imaginative searching and thorough handling has played an important part in its solution. Responsible for lead in airtel to Bureau and all offices (including Kansas City) dated 4/14/58 which resulted in Kansas City's developing positive information concerning Ralph C. McDonald and his local address in Chicago. Field Supervisor Roland E. Trent has supervised case since inception and his over-all guidance, leadership, and close attention to minute and pertinent details considered outstanding.

SAC recommended SAs Hallett and Trent for commendation.

Chicago - Kansas City provided Chicago with name of Ralph C. McDonald and his home address. Chicago checked at employment and obtained positive identification. Therefore surveillance set up at residence where subject was residing in a 4-story building with 16 apartments, in a congested area necessitating large number of personnel. Agents utilized at three alley windows on three sides of the apartment and at generally unused front door. Arresting party at the rear door.

Arrest under personal supervision of SAC. Preparation for surveillance handled by SA Supervisor Roswell T. Spencer and Relief Supervisor [redacted] b6 b7C
[redacted] Arresting party at rear door made up of SAs [redacted]
[redacted] (to whom case assigned), and SAC Auerbach. Following agents utilized in immediate area covering strategic points: [redacted]
[redacted] Joseph Sylvester.

SAC recommended foregoing agents for commendation.

Investigative Division concurs with all of foregoing recommendations, but recommends that SA [redacted] be approved for an incentive award of \$300 or amount to be fixed by Administrative Division. b6 b7C

RECOMMENDATIONS:

1. That SA [redacted] Kansas City, be approved for an incentive award of \$300 for his exceptional thoroughness, alertness, and good judgment in procuring information leading directly to location and apprehension of this badly wanted Top Ten fugitive. PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee RICHARD C. THOMPSONTitle Special Agent GS-13Rating Period: from 4/1/58 to 3/31/59

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

- Rate items as follows:
- + Outstanding (exceeding excellent and deserving of special commendation).
 - E Excellent.
 - ✓ Satisfactory (good or very good).
 - Unsatisfactory.
 - 0 No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

1. "Outstanding" adjective rating requires (A) that all rated elements be "+" and (B) that each and every rated element be factually justified by narrative detail on reverse of Form FD-185.
2. "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
 - A. Any element rated "Unsatisfactory" must be supported by narrative comments.
 - B. An "official" adjective rating of "Unsatisfactory" must comply with the requirements described on the reverse of form FD-185.

Director, FBI	From: (Suggester's name) SA RICHARD C. THOMPSON
<p>Organization: It is respectfully suggested that existing regulations be broadened so that it will be unnecessary to prepare FD-71 upon receipt of a complaint, the substance and details of which are embodied in a letter which is sent out from the field office the same day the complaint is received. Any details not necessary to the letter should then be placed on the office copies of same.</p> <p>This suggestions merely seeks to give letters (sent the day the complaint is received) the same status as teletypes and airtels, as referred to in Part II, Section 8, Para 5, b, (1), Pg. 6A, Manual of Rules and Regulations.</p> <p><i>Richard C. Thompson</i></p>	
Current practice or rule (include manual citation as well as facts) Section 8, Pg. 6A, Part II of Manual of Rules and Regulations instructs that Form FD-71 must be made out upon receipt of every complaint, except where teletype or airtel is sent same day and contains the facts of the complaint.	
Advantages of suggestion and annual savings (include basis for estimate) Adoption of this suggestion will save time in preparation and handling of FD-71 where it is unnecessary and where it contains only a repetition of the contents of the outgoing letter. I have no statistical way of knowing the amount of time which may thus be saved, but this situation occurs frequently.	
Disadvantages of suggestion None Known.	
(The use by the United States of my suggestion shall not form the basis of a further claim of any nature by me, my heirs, or assigns upon the United States)

Recommendations and comments of Division Head I believe SA THOMPSON's suggestion has a great deal of merit and I feel it was the intention of the Bureau that letters be included in the regulation. However, to clarify this point it is recommended that SA THOMPSON's suggestion be approved. <i>Gerald C. Gearty</i> G. GEARTY, SAC Signature and Title

The Agent personnel assigned averaged approximately five hours per day of VOT. Their enthusiastic and diligent assistance and their many helpful and worthwhile suggestions assisted tremendously in completing the investigation within a relatively short period of time.

The stenographic personnel assigned willingly and enthusiastically worked long hours. They gave up two successive week ends to work and their assistance made it possible for this office to submit two very voluminous reports during the course of the relatively short period of this investigation to date. (The second report in this case is presently being assembled.)

I feel that the splendid performance of these employees should be made a matter of record in their personnel files, both at the Seat of Government and in their respective field offices.

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee RICHARD C. THOMPSONTitle Special Agent GS-13Rating Period: from 4/1/59 to 3/31/60

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

- Rate items as follows:
~~+~~ Outstanding (exceeding excellent and deserving of special commendation).
~~E~~ Excellent.
~~✓~~ Satisfactory (good or very good).
~~-~~ Unsatisfactory.
~~O~~ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

- "Outstanding" adjective rating requires (A) that all rated elements be "+" and (B) that each and every rated element be factually justified by narrative detail on reverse of Form FD-185.
- "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
 - Any element rated "Unsatisfactory" must be supported by narrative comments.
 - An "official" adjective rating of "Unsatisfactory" must comply with the requirements described on the reverse of form FD-185.

Re: FOREIGN LANGUAGES - AGENTS' ABILITY

For each language, you will receive only one oral examination on tape which is given first and can be administered simultaneously to any number of Agents by use of a playback and speaker system. It is suggested you handle as many employees as possible at the same time. If there are only a few Agents in your office to be tested, the oral phase of the examination in several different languages can be administered simultaneously by using an appropriate number of playbacks equipped with earphones. In connection with the written examination, Agents can be tested simultaneously in all languages and need not be divided into language groups.

Each examinee will require a test booklet, a standard answer sheet and two or three pencils with erasers. The examinee should complete items 1 through 4 on the Army Standard Answer Sheet. Enter under item 2 the headquarters city and under item 4 the name of the language in which the examinee is being tested.

I wish to emphasize the following: EXAMINATIONS SHALL NOT BE REVIEWED PRIOR TO THE TIME THEY ARE ADMINISTERED. A TAPE MUST BE PLAYED CONTINUOUSLY AND NO MORE THAN ONCE DURING THE COURSE OF AN EXAMINATION AFTER THE PRELIMINARY INSTRUCTIONS HAVE BEEN CONCLUDED. DO NOT STOP THE TAPE OR PLAY BACK ANY PORTION. ALL ANSWERS ARE TO BE RECORDED ON THE ANSWER SHEET ONLY. MAKE NO MARKS IN THE TEST BOOKLET. THE USE OF DICTIONARIES IS PROHIBITED DURING THE TESTS. STRICTLY ADHERE TO TIME LIMITS: APPROXIMATELY 20 MINUTES FOR THE ORAL; NO MORE THAN 45 MINUTES FOR THE WRITTEN.

Upon conclusion of these examinations, furnish the name and position of the individual who administered the tests and promptly return to the Bureau, attention FBI Laboratory, all materials including answer sheets. You will be advised of the results at a later date.

on 4/27/60 [REDACTED] determined that an individual identical with subject had frequented that bar on a number of occasions, was employed by Harnischfeger Corp., working the 3rd shift, and that he resided at 3308 N. 11th St. Through additional inquiries PCI [REDACTED] learned that subject at that time was in his room at 3308 N. 11th St. [REDACTED] immediately made contact with SA THOMPSON, who in turn notified me. SA THOMPSON with SAs ROBERT M. FAUNTLEROY, JAMES E. MC ARDLE and [REDACTED] were dispatched immediately to the general area of the residence of subject and instructed to maintain the surveillance until I could proceed to the scene. The surveillance was instituted, however, before the SAC could arrive at the scene, Subject left his residence, was observed by the surveilling SAs, and was immediately taken into custody as he was approaching an alleyway on Concordia Ave., between 10th and 11th Sts. in Milwaukee.

The identification, location and apprehension of subject were attributable directly to the results of the thorough, painstaking inquiries conducted by PCI [REDACTED]. In this connection subject's actual presence in Milwaukee had not definitely been ascertained nor had his address been determined. No address of the [REDACTED] called telephonically by [REDACTED] was available, since the principal series of calls being made were directed to a public telephone. The informant, however, was able to identify subject and ascertain within a relatively short period of time his residence address, which assisted this office in effecting subject's apprehension.

SA THOMPSON is developing the PCI, fully directed his activities in connection with the location of subject, and also participated in the arrest of subject on the street near subject's residence. SAs FAUNTLEROY, MC ARDLE and [REDACTED] participated in the actual arrest. In this connection subject, because of the alacrity of the four arresting SAs, was apprehended on the street under somewhat difficult circumstances in such a manner

BACKGROUND

Mason was one of the Bureau's Ten Most Wanted Fugitives. Milwaukee, in checking out telephone calls made between Milwaukee and Detroit, possibly by subject, determined one such number was listed to public phone located in 3200 block of North 11th Street, Milwaukee. Since this neighborhood was located in an area where Agents conducting inquiry would have raised suspicion of residents, services of PCI [REDACTED] were enlisted, SA Richard C. Thompson, to whom PCI case is assigned, was specific in instructing PCI fact that information developed by him was to be furnished exclusively to the Bureau. PCI subsequently determined individual identical with subject had frequented the Champagne Bar, located in 3200 block of North 11th Street. Thereafter PCI also determined subject was employed by Harnischfeger Corporation, worked third shift and resided at 3308 North 11th Street. Through additional inquiries, PCI determined subject was, on morning of April 27, 1960, at his home. PCI immediately contacted SA Thompson and surveillances were set up in immediate area of residence. As subject left his residence, he was apprehended by SAs Robert M. Fauntleroy, James E. McArdle [REDACTED] Richard C. Thompson and M. W. Meekins.

DATE: 4/25/60

FROM : SAC, Milwaukee (66-922)

SUBJECT: 14TH ANNUAL STATEWIDE POLICE
ADMINISTRATIVE SCHOOL
Milwaukee, Wisconsin
4/19-20/60

The captioned school was held as scheduled.

For the Bureau's information, this was perhaps one of the best attended and finest in the 14 administrative schools that have now been held.

Chief of Police STANLEY R. SCHROTEL, Cincinnati, Ohio, did an excellent job in presenting his material. Every one with whom I have talked has advised me that this was the best and most instructive school they have ever attended. Those in attendance, as well as Chief SCHROTEL, have given complete credit to the Bureau for the staging of this school.

In addition to the actual planning, the following Agents participated in addition to the SAC, who acted as Moderator for the entire program:

SA ROBERT M. FAUNTLEROY
SA JOHN A. HOLTZMAN
SA [REDACTED]
SA RICHARD C. THOMPSON

b7D

A Moot Court was staged with the use of a prepared script, in which SAs FAUNTLEROY [REDACTED] and THOMPSON participated. SA HOLTZMAN, of course, as coordinator or police training, participated in the arranging of the program as well as the lining up of the outside instructors. Throughout the Moot Court the participating Agents on a number of occasions brought in the facilities of the FBI Laboratory and the services which might be rendered, cost free, to law enforcement.

4/25/60

The entire subject matter was most effectively presented and the Judge and the two participating attorneys were most high in their praise of the Agents at the Moot Court which was put on.

There was a total of 241 of the top police officials in the State of Wisconsin present at this administrative school, including the majority of the chiefs and many of the sheriffs. This is the largest attendance of high ranking law enforcement officials to attend any single school of any enforcement function during the year. It is believed that the Bureau's pre-eminent position in the field of training was again well established and further advanced the need on the part of those present for the spirit of complete cooperation with the Bureau and other law enforcement agencies.

Because of the amount of work which went into the planning and preparation of this school, as well as the splendid manner in which all participated, it is recommended a general letter of commendation be forwarded to the SAC concerning the participation of all in the administrative school. Copies of this letter will be placed in the personnel file of the participants.

ReMITel 7-15-60, advising of arrest of MARGOLES on that date, and Butel 7-16-60, requesting details leading up to and including arrest of MARGOLES, together with explanations of participating Agents and SAC's recommendations.

Memoranda in quintuplicate setting forth the requested details and explanations as prepared by SAs RICHARD C. THOMPSON, JAMES E. MC ARDLE and [REDACTED] are enclosed. SA [REDACTED] also participated in the arrest of MARGOLES, but is now confined at his home with chills and fever, having gone on sick yesterday afternoon. A memorandum will be secured from SA [REDACTED] and forwarded to the Bureau upon his return to duty, which is expected to be next Monday or Tuesday. He has been talked to and appears have no information in conflict with or which would alter the options and recommendations herein. Also enclosed is a clipping from the Milwaukee Journal of 7-15-60, and another from the Milwaukee of 7-16-60, relating to this arrest.

In a telephone call today made by Mr. BUNKER of the Investigative Division, the Bureau requested advice as to supervision of this case. From its inception on 7-3-60, to 7-13-60, it was supervised by SAC GERALD C. GEARTY. Since 7-14-60, because of Mr. GEARTY's absence on annual leave, it has been supervised by ASAC JOSEPH D. PURVIS.

Dr. MARGOLES, age 47, is director of the Capitol Hospital in Milwaukee. On 6-3-60, he was sentenced by Judge ROBERT E. TEHAN to pay a fine of \$15,000 and serve a term of one year, after pleading nolo contendere to a four count indictment charging evasion of \$101,020 in federal income taxes from 1952 through 1955. The Wisconsin State Board of Medical Examiners on 7-14-60, initiated action looking toward revocation of his license to practice medicine. On the morning of 7-15-60, a Federal Grand Jury in Milwaukee returned an indictment charging MARGOLES with violation Section 206, Title 18, U. S. Code, in that he did on 7-12-60, offer indirectly to Judge TEHAN a \$5,000 government bond payable to bearer with intent to influence the Judge's decision regarding the sentence previously imposed. Other bonds were to follow. This particular bond was turned over to [REDACTED]

was covered by Bureau Agents, and the bond is now in possession of this office. The indictment against MARGOLES was returned, and a warrant was issued at about 10:00 A.M., 7-15-60. A teletype was dispatched to the Bureau on 7-14-60, advising of this expected indictment, and the anticipated arrest of MARGOLES on the morning of 7-15-60.

At 10:05 A.M., on 7-15-60, AUSA [] EDW, b6
advised ASAC PURVIS, and the latter by radio notified SA THOMPSON, b7C
to whom the case is assigned, that the indictment had been returned
and the warrant had been issued, whereupon instructions were given
that the arrest be made. SAs [] MC ARDLE and [] had
been on surveillance with SA THOMPSON at the Capitol Hospital since
early morning. MARGOLES had been observed leaving his home and
entering the hospital. By pre-arrangement, SAs MC ARDLE and []
were to cover the rear of the hospital during the time SAs THOMPSON
and [] were inside to make the arrest. The possibility
MARGOLES might be engaged in professional service of an emergency
nature had been discussed with AUSA [] and USA EDWARD G. MINOR
by SA THOMPSON and ASAC PURVIS on 7-14-60, at which time they stated that
should such a possibility develop, the doctor should by all means be
allowed to complete his work. As it turned out, MARGOLES was in fact
about to commence an operation when he was approached. Details are
set forth in SA THOMPSON's memorandum. SAs THOMPSON and []
therefore stationed themselves inside the hospital, while SAs MC ARDLE
and [] remained outside.

At 12:08 P.M., Mr. [] advised ASAC PURVIS that MARGOLES' b6
attorney, [] had just telephoned and wanted to surrenb7C
MARGOLES; that [] had told [] that as he well knew, FBI Agents
were at the hospital at that time for the express purpose of arresting
MARGOLES but were waiting for him to complete an operation, and it was
the Government's desire that such arrest be effected by the FBI. []
and MINOR had been advised by PURVIS at 11:20 A.M. of information
received from THOMPSON a few minutes earlier concerning results of the
contact which had been made with MARGOLES. At 12:14 P.M., ASAC PURVIS
related to SA MC ARDLE the information regarding [] call to
[] SA MC ARDLE advised that at that very moment, SAs THOMPSON
and [] were entering the house into which a man in white uniform
had gone a few minutes earlier, after coming down the rear fire escape
of the hospital. At 12:33 P.M., SA MC ARDLE advised that SAs THOMPSON
and [] were putting MARGOLES into a Bureau car. MARGOLES was
taken directly to the Federal Building, where he later posted bond of
\$25,000 in the form of a certified check. This check has disclosed
the existence of funds against which the Internal Revenue Service is
this weekend preparing to place a lien. USA MINOR has advised this

DATE: July 16, 1960

FROM : SA RICHARD C. THOMPSON

SUBJECT:

[REDACTED]
MILTON MARGOLES
BRIBERY

b6
b7C

At approximately 10:10 AM, on July 15, 1960, having just received instructions to apprehend MARGOLES, SA RICHARD C. THOMPSON requested SAs JAMES E. MC ARDLE and [REDACTED] to park on N. 20th Street near Capitol Hospital so that they could see the back entrance of the hospital and also see the car in which SAs [REDACTED] and THOMPSON were working and which was parked near the front entrance of the hospital. SA THOMPSON also requested that SAs MC ARDLE and [REDACTED] watch the back entrance and that they be alert to see SA [REDACTED] and himself when we brought MARGOLES to the Bureau car. They were then to signal the office that MARGOLES was in custody and proceed in convoy to deliver MARGOLES to the U. S. Marshal.

b6
b7C

After giving these instructions, SA THOMPSON entered the hospital with SA [REDACTED] and inquired for DR. MARGOLES. A receptionist inquired by phone and stated that DR. MARGOLES was examining a patient. She asked the agents to sit down in the waiting room.

b6
b7C

Just such a situation had been foreseen and, since it would seem a gross breach of propriety to walk in on an undressed patient, SAs THOMPSON and [REDACTED] waited for DR. MARGOLES, but positioned themselves so that he could not leave through the front door without their knowledge. It should also be pointed out that, since the doctor might be with a patient - or even in surgery - when the agents called at the hospital, the agents did not then announce their identity and purpose. After some delay, DR. MARGOLES was free and SAs THOMPSON and [REDACTED] met him in his office.

b6
b7C

The agents identified themselves and then told MARGOLES that a Federal warrant had been issued for his arrest

and it was their duty to deliver him to the U. S. Marshal. SA THOMPSON then said "Doctor, we are going to be gentlemen and we expect you to be a gentleman. You are a doctor. You have patients. We want you now to make any necessary arrangements so that another doctor can take care of those of your patients who need immediate attention." DR. MARGOLES said he had an emergency abdominal operation coming up at 11 AM (it was then about 11 AM) and he would be assisting DR. [] at the operation. He said it would be impossible to get some one to take his place. SA THOMPSON told DR. MARGOLES to go ahead with the operation, but also told him the agents would be close by and would deliver him to the USM when the operation was over. DR. MARGOLES said the operation would take about an hour - maybe an hour and a half. Then DR. MARGOLES was given the usual caution and for about six or seven minutes was interviewed concerning the offense with which he is charged.

b6
b7C

At about 11:08 AM, DR. MARGOLES received a phone call, which he was permitted to answer, because of the emergency operation which was then due to []. Dr. MARGOLES said "I'll be right there, Dr. []". He then stated to the agents that DR. [] was ready to operate and the patient was already asleep. DR. MARGOLES was permitted to leave his office and proceed to the operating room.

b6
b7C

At this point, it appears appropriate to describe Capitol Hospital from the point of view of covering the activities of DR. MARGOLES while he was at liberty to conduct an operation. It is a two-story building, small by usual standards, and it fronts directly on Capitol Drive. The rear of the hospital is at an alley. There are double doors at the front, a single door at the rear and a pull-down fire-escape which gives egress from the second floor to the alley. The rooms and corridors of the hospital are small.

At the moment DR. MARGOLES left his office to go to the operating room, SA THOMPSON, who was in charge of the group, had to decide whether to accompany the doctor to the operating room or merely to cover the exits. SA THOMPSON weighed the possibilities and decided to cover the exits because (1) if anything went wrong during the operation and the patient died, it could not then be said that the agents were the cause thereof;

(2) coverage of the exits seemed a secure method, yet it avoided any charge, real or otherwise, that the FBI and/or its agents had acted without consideration for human values or that the FBI could be accused of any inhumanity whatsoever.

SA THOMPSON then re-contacted SAs MC ARDLE and [redacted] to apprise them of what had developed and to instruct them to keep watch on the fire-escape and the rear door.

b6
b7C

Somewhat less than an hour later, SA [redacted] informed SA THOMPSON that a man, believed to be DR. MARGOLES, had come down the fire escape and gone into a house, namely, [redacted]. SA [redacted] was told to cover the rear of that building while SA THOMPSON went to the front, ascertained that DR. MARGOLES was in the house and completed the arrest. SA [redacted] came into the house to assist, as did SA [redacted] when notified by phone that MARGOLES was at [redacted].

b6
b7C

DR. MARGOLES was making a phone call and was in white hospital clothing (just having come from the operating room) when found at [redacted]. He was talking to his attorney, [redacted] who was then at Capitol Hospital. He asked, during this phone call, that his street clothes be brought to him. He was permitted to put on his street clothes, in which was found an unsigned, hand-written document, prepared for the signature of [redacted] the informant in this case. This document was seized as an instrumentality of the crime and is preserved as evidence. It is quoted below:

b6
b7C
b7D

"July 12, 1960

"I have recieved from Dr. Milton Margoles one Five Thousand Dollar U. S. Treasury Bond to be used in hiring an attorney to obtain a change in sentence from a 12 months jail sentence to a suspended sentence.

"Upon accomplishment of this change in sentence an additional \$5000.00 U. S. Treasury Bond is to be given to me with in 5 days.

"If this change in sentence is not accomplished I agree to return the \$5000.00 U. S. Treasury Bond used as deposit."

DR. MARGOLES was delivered without further incident to the U. S. M. by SAs THOMPSON, [REDACTED] with SA MC ARDLE driving the second Bureau car in convoy.

b6
b7C

It should be noted that prior to the arrest of DR. MARGOLES, a discussion was had with AUSA [REDACTED] [REDACTED] as well as USA EDWARD G. MINOR. It was pointed out to them that DR. MARGOLES might have a patient ready for surgery at the time of his arrest and they stated that in such a case, DR. MARGOLES should be permitted to conduct his professional duties, for the good of the patient, prior to submitting to arrest, if such was the desire of DR. MARGOLES and no substitute could be obtained by him.

The Bureau will be interested to know that Federal Judge ROBERT E. TEHAN today made a special point of expressing to ASAC JOSEPH D. PURVIS in the absence of SAC GERALD C. GEARTY his appreciation for the manner in which this case has been handled by the FBI. Reference was made in Milet of 7-16-60, to Judge TEHAN's reaction as expressed to SA RICHARD C. THOMPSON, with whom the Judge had dealt during development of the case. Judge TEHAN remarked today that he considered this whole matter distasteful and was sorry that it came about. He said it would have been so easy for indignity to have been reflected upon the court and upon him, personally, simply by reason of MARGOLES' indirect overture, and he was highly pleased with the manner in which the investigation had been conducted and the arrest made. He also said he would like to offer his compliments to SAs THOMPSON and [REDACTED] for their careful and thorough work. Judge TEHAN was told, of course, of the Bureau's appreciation of his remarks in conversation which was held in his chambers. He advised again, confidentially, that it was still his feeling justice would best be served by revoking the stay previously granted MARGOLES to commence the one year sentence imposed 6-3-60. He has had the order drawn, and unless he changes his mind upon further consideration, the order will be signed and MARGOLES will be given just a few days to get his affairs in order before beginning his sentence, rather than waiting until 9-7-60 under the existing order.

As the Bureau is well aware, Subject MARGOLES, following a jury trial, was convicted of Obstruction of Justice on 10-11-60. The principal amount of investigation in this case was conducted by SA RICHARD C. THOMPSON, assisted by SA [redacted]

SA THOMPSON exhibited a great deal of initiative and ingenuity throughout the conduct of this case, not only with reference to the investigation which was conducted, but also in the handling of the intermediary, [redacted]. He also was the [redacted] to substantiate the testimony of [redacted]. It is pointed out that at the direct and cross examination testimony, SA THOMPSON was on the stand for approximately four hours. I have talked with U. S. Attorney Edward G. Minor, who was most complimentary in his comments concerning the testimony of SA THOMPSON. I have also been informed that despite the length of his testimony, it was not necessary for him to resort to any notes. This, I am informed, was most impressive to the jury and to the others in the court room -- even the Defense Attorney, [redacted]. All in all, based on the successful results of the case and the extremely complimentary comments I have received, indications are that SA THOMPSON did an exceptionally fine job in his over-all handling of this matter.

It is pointed out that SA [redacted] assisted from the start in the investigation of this case, and was most meticulous in the handling of his assignments. U. S. Attorney Minor also informed me that SA [redacted] when called as a witness, did a very fine job and was a credit to this office and the Bureau in the manner in which he conducted himself.

It is recommended, therefore, that letters of commendation be forwarded to SAs THOMPSON and [redacted] for the excellence of their investigative efforts and for the exceptionally fine job they did in connection with their testifying in court concerning this case.

RECOMMENDATIONS OF INVESTIGATIVE DIVISION: DWM:DC

This case involves an attempt by Dr. Milton Margoles who operates a medical hospital, Milwaukee, Wisconsin, to bribe U. S. District Judge Robert E. Tehan, Milwaukee, to secure a reduction in sentence of one year and \$15,000 fine for income tax evasion. Margoles made contact with [redacted] and close friend of Judge Tehan's son. Margoles offered \$20,000 if reduction in sentence could be obtained. [redacted] reported matter to Milwaukee Office which initiated a discreet investigation. On 7/12/60 Margoles gave [redacted] a \$5,000 Treasury Note as initial payment to Judge Tehan. Payoff covered by Bureau Agents and Margoles indicted by Federal Grand Jury 7/15/60 and was arrested same date. On 10/11/60 subject found guilty of two counts of Obstruction of Justice after trial by jury and is currently awaiting sentence.

This case was assigned to SA Richard C. Thompson who was assisted in the investigation by SA [redacted]. This investigation was an extremely sensitive one in view of the nature of the violation. Numerous contacts and meetings between [redacted] and Margoles were covered by SAs Thompson and [redacted]. Some of the surveillances were conducted late at night which often ran into the early hours of the morning. In addition to this phase, it was necessary for other investigation to be conducted to develop evidence to be utilized at the grand jury proceedings as well as the trial.

SAC, Milwaukee, recommends that SAs Thompson and [redacted] be commended for their excellent investigative efforts in this case as well as for the excellent fashion in which they testified during the trial.

The Investigative Division concurs with the SAC and recommends that a letter of commendation be directed to SAs Richard C. Thompson and [redacted] for the meticulous, thorough and aggressive manner in which they handled and conducted the investigation in this case, which required that it be handled in a highly discreet manner in view of the nature of the case which was an attempted bribe of a Federal judge. The investigation handled by both of these Agents resulted in developing evidence which resulted in subject being found guilty of Obstruction of Justice.

Guide for determining adjective rating:

- "Outstanding" adjective rating requires (A) that all rated elements be "+" and (B) that each and every rated element be factually justified by narrative detail on reverse of Form FD-185.
- "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
 A. Any element rated "Unsatisfactory" must be supported by narrative comments.
 B. An "official" adjective rating of "Unsatisfactory" must comply with the requirements described on the reverse of form FD-185.

Milwaukee Inspection

During this inspection a survey was made of WSTA matters in the Milwaukee Division in view of the Bureau's recent intensification of investigations of this activity. Milwaukee is located near Chicago, There is known to be active prostitution in both Milwaukee and Hurley, Wisconsin, yet there have been no convictions in the WSTA category during the past fiscal year and only two such convictions since 1956. SA THOMPSON is one of two agents assigned to implement the Bureau's intensifications program of WSTA matters and he also handles six criminal informants and five potential criminal informants who furnish considerable information regarding such activity.

An extensive review of open and closed WSTA cases reveal the need for stressing the importance of more prompt, vigorous and imaginative handling of these cases. One such case assigned to SA THOMPSON entitled [redacted] WSTA," (copy attached) was found to have apparent delay and incomplete investigation as well as apparent failure to utilize informant coverage to better advantage. These derelictions were considered to be substantive in nature and SA THOMPSON was requested to submit explanations.

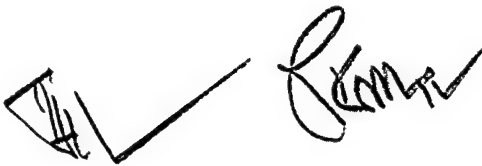

b6
b7C

SA THOMPSON explained that this case was assigned to him on February 23, 1961. It involved a request by the Cincinnati Office to locate and interview three individuals regarding prostitution activities and for information concerning a fugitive wanted by the Dayton, Ohio, Police Department. On March 17, 1961 and April 1, 1961 SA THOMPSON contacted certain informants and learned that one of the girls involved had engaged in prostitution in Milwaukee and had been arrested by the Milwaukee Police Department. The file revealed no further investigation; however, SA THOMPSON advised he did shortly thereafter verify the arrest of the individual in question, obtained her address from arrest records and on April 19, 1961 attempted unsuccessfully to locate her. He made subsequent efforts on May 15, 17, and 18, 1961 to locate persons involved in this case but has not yet fully resolved the matter. He explained that he has been used extensively on police schools, a bank robbery case was assigned to him on April 26, 1961, and on May 2, 1961 he was assigned a major theft case originating in Chicago. Undoubtedly, SA THOMPSON has been heavily involved and it appears that he did first things first and yet continued to give some attention to the WSTA case in question.

An analysis of the performance of SA THOMPSON reveals that his voluntary overtime for the past six months has been substantial, his time in the office has been higher than the office average but this is due to the nature of his assignments, and that his production has been below the office average, due to the complexity of certain of his cases and the fact that a number of his cases involve informants whose cases do not turn over rapidly. I feel that his overall performance is above average, SAC ROACH advises me that SA THOMPSON is an extremely valuable agent who is always heavily assigned important matters and I feel that the calling of this WSTA case to his attention will assure that these matters get more proper handling in the future.

RECOMMENDATIONS:

1. No censure for SA THOMPSON.

A handwritten signature, possibly "Rosen", with a large checkmark to its left.

2. Recommendations with regard to SAC ROACH will be handled separately in inspection summary.

A handwritten signature, possibly "Rosen", with a large checkmark to its left.

3. No Seat of Government supervisory responsibility since the Bureau has no copies of serials in this case and is unaware of its handling.

A handwritten signature, possibly "Rosen", with a large checkmark to its left.

safe burglary school. From 3/5/61 to 3/10/61 I was away from Headquarters City on police schools. Upon my return, I worked on two anti-racketeering cases, contacted numerous informants, worked on other cases requiring attention and prepared a summary of the appeal brief of the Appellant in an OOJ case.

On 4/1/61 [] advised that [] had been arrested. At that time I was preparing six semi-annual letters on Criminal Informants (due at the Bureau 4/15/61) and handling other matters that required attention prior to departing for another week of police school, 4/10-14/61, locations outside of Headquarters City. I did verify [] arrest and obtain her address from arrest records. On 4/19/61 I attempted to locate [] through [] and at the address given on arrest, but did not find her.

b6

b7D

On 4/26/61 a bank robbery case was assigned to me. This required most of my time until 5/2/61. When a major development occurred in the case entitled [] Et al., ITSP - MT, ITSMV, MI file 87-5029. Since 5/2/61 a major portion of my time has been devoted to this Major Theft case, which continues to take a good deal of time because of impending grand jury presentation. However, on 5/15/61 I made further efforts to locate [] and discovered that Subject [] had been in Milwaukee at the Kilbourn Hotel on 3/19/61. On 5/17/61 the Kilbourn Hotel advised that [] was back there, but was not in his room when agents called. On 5/18/61 [] was located. He denied a WSTA violation and claimed that [] was in Cleveland. Since it was known that the Secret Service was interested in [] the Secret Service was informed and they filed a complaint against [] after he admitted forging the endorsement on a government check.

b6
b7C

I regret that this case did not receive prompt and adequate attention. I will do everything consistent with my capabilities to bring it into a correct status, to find [] for interview, to resolve whether she or her sister, [] is the real Victim in this case and to present the facts to the USA for prosecutive opinion as soon as the true facts are known.

SAC ROACH:

The Inspector's comments have been noted and I will give this case my close personal attention.

By letter dated 11-22-61 SAC, Milwaukee, forwarded a letter from captioned Agent advising that he had been approached by Captain [redacted] (NA), Wauwatosa, Wisconsin, Police Department, to apply for the newly created position of Inspector of Police. SA Thompson advised that since employment factors appear very favorable and Wauwatosa has been his home for the past 15 years, he had decided to apply for this position. He stated he has no intention of applying for retirement at this time unless he is appointed to be the new Inspector of Police. SA Thompson advised that it was apparent that this new position will be next in rank to the Chief of Police and the Inspector will undoubtedly succeed as head of the department upon the retirement of the present Chief of Police.

SA Thompson meets the age and service requirements for retirement under the liberalized provisions for Special Agents. His services have been satisfactory. SAC, Milwaukee, stated SA Thompson is one of the most competent Agents and he regrets to see Thompson take this action. SAC further stated that he would endeavor to talk Thompson out of accepting the position if it is ultimately offered to him.

Mr. J. Edgar Hoover
Director
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Hoover:

The City of Wauwatosa, Wisconsin, is taking applications for the newly-created position of Inspector of Police. Captain [REDACTED] (NA) of the Wauwatosa Police Department recently approached me to apply. Since Wauwatosa has been my home for the past fifteen years and since employment factors appear very favorable, I have decided to submit an application.

b6
b7C

This was not an easy decision to make, but was the product of a great deal of thought. It will be hard to leave the F.B.I. should I be the successful candidate. Knowing the scope of the Bureau's responsibilities and the tremendous tasks that confront it today, I have no intention of applying for retirement at this time unless I am appointed to be the new Inspector of Police.

Wauwatosa, a suburb of Milwaukee, is a city of about 57,000. It currently has a police department of seventy-six men. The inspector's position will be next in rank to the Chief of Police, and it is apparent that the inspector will be expected to succeed as head of the department upon the retirement of the present Chief of Police.

In connection with this matter, my fingerprints will be submitted with my application and I expect that they will be forwarded to the Identification Division in due course.

Sincerely yours,

Richard C. Thompson

NARRATIVE COMMENTS

Note: The regulations require that OUTSTANDING ratings be supported by a statement in writing setting forth IN DETAIL the performance IN EVERY ASPECT and the REASONS for considering each worthy of SPECIAL COMMENDATION. UNSATISFACTORY ratings must be supported by a statement in writing stating (1) WHEREIN the performance is unsatisfactory, (2) the facts of the (90 day) PRIOR WARNING, and (3) the efforts made AFTER THE WARNING TO HELP the employee bring his performance up to a satisfactory level.

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

- Rate items as follows:
~~+~~ Outstanding (exceeding excellent and deserving of special commendation).
~~E~~ Excellent.
~~✓~~ Satisfactory (good or very good).
~~-~~ Unsatisfactory.
~~O~~ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

- "Outstanding" adjective rating requires (A) that all rated elements be "+" and (B) that each and every rated element be factually justified by narrative detail on reverse of Form FD-185.
- "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
 - Any element rated "Unsatisfactory" must be supported by narrative comments.
 - An "official" adjective rating of "Unsatisfactory" must comply with the requirements described on the reverse of form FD-185.

PART I GENERAL COMMENTS

SA Richard C. Thompson makes an outstanding personal appearance and has an excellent personality which enables him to make excellent contacts for the Milwaukee Office among law enforcement officials and the general public. He has demonstrated the ability to handle the most complicated investigative matters and has shown marked ability to participate in raids and dangerous assignments both as a leader and participant. There are no limitations on his availability and there are no physical limitations affecting his performance. He is one of the most conscientious, hard-working and dedicated employees in the Milwaukee Office and can always be counted upon to do the best possible job. His judgment is mature. He has a wide knowledge of criminal activities in the Milwaukee area and is doing an outstanding job handling Top Hoodlum cases at the present time. His paper work is submitted in excellent fashion and he requires minimum supervision. By letter dated 4/24/61 SA Thompson shared in an office commendation by the Director for contributing to the success of the state-wide specialized police training schools and on 9/21/61 was commended by the SAC, Milwaukee, for his excellent performance in handling various phases of a sensitive investigation into the crash of an airplane. By letter dated 2/13/62 from the Director SA Thompson shared in an office commendation for the splendid accomplishment realized in reporting a zero delinquency for January, 1962, and on 3/29/62 was commended by the SAC, Milwaukee, for contributing to an excellent team effort in the Milwaukee Division which ultimately resulted in the apprehension of a Top Ten Fugitive. I feel SA Thompson is one of the outstanding agents in the entire Milwaukee Division.

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee RICHARD C. THOMPSONTitle Special Agent GS-13Rating Period: from 4/1/63 to 11/12/63

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

Rate items as follows:

- + Outstanding (exceeding excellent and deserving of special commendation).
E Excellent.
✓ Satisfactory (good or very good).
- Unsatisfactory.
O No opportunity to appraise performance during rating period.

Guide for determining adjective ratings:

- "Outstanding" adjective rating requires (A) that all rated elements be "+" and (B) that each and every rated element be factually justified by narrative detail on reverse of Form FD-185.
- "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
 - Any element rated "Unsatisfactory" must be supported by narrative comments.
 - An "official" adjective rating of "Unsatisfactory" must comply with the requirements described on the reverse of form FD-185.

EMPLOYEE'S INITIALS

PART I GENERAL COMMENTS

SA RICHARD C. THOMPSON makes an outstanding personal appearance and possesses a friendly personality which enables him to be very effective in his contacts with law enforcement and the general public. He is a mature, experienced agent who has outstanding ability to handle complicated criminal investigative matters and can lead or participate on raids and dangerous assignments. He is within the desirable weight range for his height and frame and I know of no limitations on his physical ability to perform the duties of a Special Agent. SA THOMPSON has worked primarily on the criminal intelligence program and is presently assigned to the exclusive development of top echelon criminal informants. He has a considerable knack in this field and is doing an outstanding job in this connection. He was commended 6/18/63 by the SAC for his splendid cooperation and team work in connection with the criminal intelligence program by working long hours of overtime despite personal inconvenience. He was particularly commended for his excellent assistance in the organization and preparation of important communications in this field. This office received a letter dated 9/10/63 from the president of a local bank in Milwaukee commending agents who participated in a Bank Robbery conference. SA THOMPSON contributed considerably to this demonstration. I feel that SA THOMPSON is a dedicated, loyal and conscientious employee and is considered one of the most outstanding criminal investigators in the Milwaukee Office. He is entitled to the rating of excellent.

Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
 - Any element rated "Unsatisfactory" must be supported by narrative comments.

PART I GENERAL COMMENTS

SA RICHARD C. THOMPSON is tall, has an athletic build and presents an outstanding personal appearance. He has a warm and friendly personality which has been of great assistance to him in his contact work. In the recent past it was necessary for SA THOMPSON to undergo corrective surgery for a hemorrhoid condition and as a result he used more sick leave than earned. In view of the nature of the illness this is not considered abnormal use of sick leave and he has effected a complete recovery. He has no other physical limitations and upon certification for arduous physical exertion by his physician which should be forthcoming shortly, he can be used on raids and dangerous assignments as a participant or leader. SA THOMPSON advises he is completely available for any special or general Bureau assignment. During the rating period he has handled primarily matters relating to the criminal intelligence program with special concentration on top echelon informant development. He appears to be particularly suited for this type of work since his personality is such that he quickly wins the confidence of individuals with whom he deals including those with a criminal background. He is presently handling a large number of criminal informants and potential criminal informants and has been doing a most effective job in this field. In addition to his ability along informant development lines, he has been given other investigative assignments as the situation requires and has demonstrated that he can handle the most involved and delicate cases with a high degree of professional competence. He is an extremely intelligent individual, completely dedicated to the Bureau's work and very conscientious as to his responsibilities. He is a great asset to the investigative staff of this office.

CRIMINAL INFORMANT PROGRAM

The narrative which follows relates to the development of the above captioned informant by Special Agents RICHARD C. THOMPSON and ALEXANDER P. LE GRAND.

This informant has for many years been known in law enforcement circles as a member of the local Italian hoodlum element. Information has been received concerning his activities over a number of years, and investigation of him has been conducted to develop information concerning his background. It has been ascertained that he has been involved in hoodlum pursuits during the major part of his adult life and has been closely allied with other principal hoodlum figures. More recent information obtained developed that he was considered one of the principal hoodlum figures himself.

Contacts with the long range objective of developing him as an informant were commenced in June, 1962, and those contacts which were successfully made were handled by SA THOMPSON. By reason of this man's background he was naturally reluctant to have any contact with an FBI representative but over a period of time, primarily as a result of the force of Special Agent THOMPSON's personality and the means used by him to contact this man, a tenuous relationship began to develop. Subsequent contacts were made as various situations presented themselves but nothing of particular significance could be elicited. At the time of the abduction and murder of ANTHONY BIZENAT additional contacts were made with this man by Special Agent THOMPSON and, while he denied any direct knowledge, he did furnish information which was of assistance in this investigation which he gave on a more or less hypothetical basis in order that no one could state that he had cooperated with the FBI.

In the past several months, after designating this individual as a specific target for development under the Top Echelon Criminal Informant Program, more concentrated attention has been given to him. Solely as a result of the rapport that had developed between Special Agent THOMPSON and this individual, the latter

made contacts with Special Agent THOMPSON indicating that a matter had arisen in which he needed Special Agent THOMPSON's advice. Using this situation as a vehicle for exploiting this man's potential as an informant, Special Agents THOMPSON and LE GRAND commenced negotiations with this individual. During these conversations his natural reluctance to talk to FBI agents was gradually dispelled and a feeling of trust in the two agents contacting him slowly matured. As a result of continued contacts with him his development has reached the point where he will be designated a Top Echelon Informant. He is now furnishing detailed and specific information concerning the inner workings of La Cosa Nostra, not only in the Milwaukee area but the Chicago area as well and tie-ins in other cities concerning which he has knowledge. He has furnished extensive historical information concerning the hoodlum hierarchy and is now furnishing information on a current basis concerning highly placed hoodlum figures in which this office is extremely interested.

It must be borne in mind that this individual was born and raised in an environment which indelibly impressed upon him that any cooperation with law enforcement authorities and the exposure of his comrades to them would result in an instant death, usually by most unpleasant means. This subject has come up frequently in the agents conversations with him and it is a sign of the tremendous sales job which they performed resulting in his cooperation with them.

Needless to say, he is still extremely apprehensive concerning his personal safety since he still is active in hoodlum affairs and has a close relationship with hoodlum figures. He, in effect, feels and said that he has placed his very life in the hands of these agents. This is used to illustrate the complete capitulation which this individual has made to the handling agents.

It must be recognized that this individual is furnishing information to the Bureau concerning matters which are unavailable to us by any other means. This information is adding immeasurably to the knowledge of the Bureau in hoodlum affairs.

It is felt that during the entire period this individual was under development the personnel handling him performed in a superb manner, applying just the proper amounts of persuasion and keeping closely attuned to the man's frame of mind. These agents have spent many long hours in the development of this individual, much of it after hours. There has been great pressure on them to produce results in this case and they have come through in an outstanding manner.

It is felt that their superior performance in the development of this informant far exceeds the norm and amply justifies consideration for a substantial monetary award. While both agents have participated jointly in his recent development, it is felt that the initial work on the part of Special Agent THOMPSON laid the foundation for his subsequent development. Accordingly, it is felt that in considering Incentive Awards for these two agents that Special Agent THOMPSON should receive a somewhat larger award than Special Agent LE GRAND.

SAC, Milwaukee, has recommended that Special Agents (SAs) Thompson and LeGrand be granted incentive awards for their outstanding performance in connection with the development of [redacted] a top echelon criminal informant of unusual capabilities.

Milwaukee points out that a painstaking project to develop this informant was instituted by these Agents in June of 1962, at which time they launched on a program of continued contact to develop a speaking relationship with this hoodlum. It was recognized that the informant, a recognized leader in Milwaukee's organized Italian underworld, would be antagonistic at the outset, and specific approaches were devised to put these Agents on a repeated conversational relationship with the source. Gradually they developed their contact with this individual to a point where, in recent months, he sought out their advice and assistance on a sensitive matter. These Agents recognized the unusual opportunity presented by this gesture on the part of the potential informant and they immediately intensified their approach, with a goal of obtaining his cooperation. A number of obstacles were encountered, mainly by virtue of the fact that the informant, a veteran member of La Cosa Nostra, was fully aware that any cooperation on his part would result in his instant death at the hands of his La Cosa Nostra associates. He was particularly aware of this in view of his personal experience with situations in which La Cosa Nostra members met their deaths for much lesser violations of this organization's strict code. In the face of this, SAs Thompson and LeGrande were sufficiently ingenious and persuasive to gradually bring the informant to a position of partial cooperation. At this point he furnished these Agents with information concerning the murder of Wisconsin gambling figure Anthony Biernat, which was instrumental in locating Biernat's body. From that point on these Agents, demonstrating outstanding abilities in persistence and persuasion, continued to cement their relationship with the informant to a point where, in the recent past, he has proceeded to make complete disclosures regarding his membership in La Cosa Nostra and the scope of this organization in the Milwaukee area.

Memorandum to Mr. Belmont
Re: Special Agent Richard C. Thompson
Special Agent Alexander P. LeGrand
Incentive Award Matter

This informant has provided voluminous details regarding the history and leadership of La Cosa Nostra in the Milwaukee area, together with the complete breakdown of the current leadership by official positions, in addition to what is substantially the entire La Cosa Nostra membership in Milwaukee. Informant has also explained the relationships between the Milwaukee "family" and the Chicago group, noting that Milwaukee is subservient to the Chicago leadership. In addition, the informant has identified a La Cosa Nostra group in Madison, Wisconsin, and more recently a similar group in Rockford, Illinois, both of which also are subservient to the Chicago "family."

This informant is one of a select few in the Top Echelon Criminal Informant Program who are members of La Cosa Nostra, and he is the only member of this organization we have in the Midwest. The data which he has provided to date has been most significant and was previously unobtainable through any other source.

SAC, Milwaukee, has explained that Agents Thompson and LeGrand not only demonstrated outstanding investigative abilities in their careful development of this source, but devoted extremely long hours at irregular intervals to the delicate handling which was so necessary in bringing about this accomplishment.

It is believed that these Agents have been responsible for an outstanding accomplishment in developing a member of La Cosa Nostra, which has enabled extremely valuable insight into this organization in the Midwestern part of the country, which was not possible to obtain through other means.

RECOMMENDATION

The Special Investigative Division recommends that incentive awards in an amount to be determined by the Administrative Division be granted to SAs Thompson and LeGrand.

ADDENDUM OF THE ADMINISTRATIVE DIVISION, FRP:cmd, 5-22-64.

Information furnished by SAC, Milwaukee, and Special Investigative Division indicates SAs Thompson and LeGrand performed in an outstanding manner in developing a top echelon criminal informant who is a member of La Cosa Nostra. This informant was initially reluctant but has since furnished extremely valuable information concerning operations of La Cosa Nostra in the Midwestern part of the Country, this information not being available by any other means. These Agents are certainly deserving of special recognition in the form of incentive awards.

SA Thompson EOD 2-3-41 and is in Grade GS-13, \$14,035. During the past three years his services have been entirely satisfactory with no censures or commendations. He was rated Excellent on his last performance report, and his overtime has been satisfactory.

SA LeGrand EOD 11-6-39 and is in Grade GS-13, \$14,420. During the past three years his services have been entirely satisfactory with no censures and three commendations, two of which were through his SAC. He was rated Excellent on his last performance report and his overtime has been satisfactory.

Based on approved tables for determining the amount of incentive awards, their services are considered to be of moderate value and broad application to the work of the Bureau entitling each to an award of \$150 to \$300.

RECOMMENDATION:

That SAs Richard C. Thompson and Alexander P. LeGrand each be approved for incentive awards in the amount of \$150. (Amount recommended is in line with awards previously granted for similar performances.)

Name of Employee RICHARD C. THOMPSON Title Special Agent GS-13

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

RATE ITEMS AS FOLLOWS:

- + Outstanding (exceeding excellent and deserving of special commendation).
E Excellent.
✓ Satisfactory (good or very good).
- Unsatisfactory.
O No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

- "Outstanding" adjective rating requires (A) that all elements be + and (B) that each and every rated element be factually justified by narrative details, including reasons for considering each worthy of Special Commendation and be attached to FD-185a.
- "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
 - Any element rated "Unsatisfactory" must be supported by narrative comments.
 - An official rating of "Unsatisfactory" must be supported in writing stating (1) wherein the performance is unsatisfactory, (2) the facts of the (90-day) prior warning, and (3) the efforts made after the warning to help the employee bring his performance up to a satisfactory level and must be attached to FD-185a.

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee RICHARD C. THOMPSON Title Special Agent GS-13
Rating Period: from 4/1/65 to 9/10/65

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

RATE ITEMS AS FOLLOWS:

- + Outstanding (exceeding excellent and deserving of special commendation).
E Excellent.
✓ Satisfactory (good or very good).
- Unsatisfactory.
0 No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

- "Outstanding" adjective rating requires (A) that all elements be + and (B) that each and every rated element be factually justified by narrative details, including reasons for considering each worthy of Special Commendation and be attached to FD-185a.
- "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
 - Any element rated "Unsatisfactory" must be supported by narrative comments.
 - An official rating of "Unsatisfactory" must be supported in writing stating (1) wherein the performance is unsatisfactory, (2) the facts of the (90-day) prior warning, and (3) the efforts made after the warning to help the employee bring his performance up to a satisfactory level and must be attached to FD-185a.

APPLICATION

- ☒ The "Application for Retirement" will be forwarded by the Bureau to the Civil Service Commission (CSC) for approval.
- ☐ The enclosed "Application for Retirement" should be executed (or changed as indicated below) and promptly returned to the Bureau for forwarding to the Civil Service Commission (CSC) for approval. The information sheet attached to the application is for your records and you should detach it before sending in the application.

DEPOSIT OR REDEPOSIT

Making either a deposit or redeposit is optional. Such amounts are paid directly by you to CSC; therefore, it is possible that you have already made the deposit or redeposit indicated below without the Bureau's knowledge, having dealt directly with CSC. If so, you may ignore this matter now. If not, after a review of the approximate annuity figures shown below, should you decide to make a deposit or redeposit, you should request Bureau to forward Standard Form 2803 to you. This form should be returned to the Bureau.

- ☒ Not applicable, **as assumed no refund received covering State Department service.**
- ☐ The deposit you may owe is a payment to the retirement fund to cover a period of service during which no retirement deductions were withheld from salary. Credit is given for service not covered by deductions; however, if the deposit is not paid, your annuity will be reduced each year by 10% of the amount due as deposit. The amount you may owe is approximately \$ _____.
- ☐ The redeposit you may owe is a payment to the retirement fund to cover a period of service for which retirement deductions were withheld from your salary but later refunded to you following your separation from civilian employment. No credit is allowed in the computation of annuity for the period of service covered by the refund unless redeposit is made. The amount you may owe is approximately \$ _____.

ANNUITY

Annuities are computed on full months of service. The estimated annuity below is based on your ☒ Bureau service, ☒ other civilian Government service and/or ☐ military service known to us, totalling 28 years, 1 month and 12 days. CSC makes the official computations and determines whether prior service is creditable, advising you direct the exact amount of your annuity. The figures below are only estimates, and they do not take account of deduction for health insurance coverage. You should receive the first annuity check about two months after separating from the Bureau's rolls.

plus annuity for each eligible child.

SEPARATION FROM ROLLS

It is satisfactory to cease active duty on 12/23/65, and the annuity will commence 12/30/65

- ☐ immediately following the cease-active-duty date.
- ☒ immediately following the expiration of current accrued annual leave on 12/29/65 earned through 12/17/65

Item 4 under B, Date of Final Separation, on the retirement application, should show separation date from the Bureau to be at close of business _____, and ☐ should be changed accordingly ☐ provided no annual leave is used by you subsequent to _____.

- ☐ If retirement is for disability, separation takes effect after the approval of CSC is received by the Bureau or after the expiration of accrued sick leave, whichever occurs later. Under Internal Revenue Service regulations, some sick pay and disability income is not taxable; thus, you may be able to exclude from Federal income tax liability all or a part of the payments you receive for sick leave used and for annuity received as a disability annuitant. Any such exemption would terminate when you reach normal retirement age. Questions you may have as an annuitant regarding your income tax liability or privileges can be answered by the Internal Revenue Service.

- ☒ You will receive a lump-sum payment for your accumulated annual leave in the approximate amount of \$ 4950

FEDERAL EMPLOYEES' GROUP LIFE INSURANCE ACT

- ☐ Records show you executed Standard Form 53, "Waiver of Life Insurance Coverage."
- ☒ Your coverage is in the amount of \$ 16,000. You may continue this group insurance coverage at no premium cost following retirement or convert the insurance to an individual life insurance policy without medical examination. If converted, the double indemnity and dismemberment protection stops, and you will pay the usual premium charged by the company for a person of your age and class of risk. If you elect to keep the group insurance, the \$ 16,000 protection continues until you are age 65. At that time this amount begins to reduce at the rate of 2% per month until you are about 68 years and 2 months of age. If you are now 65 or over, the same reduction process occurs, the maximum reduction being reached in three years and two months. Coverage in the reduced amount (25% of face value) continues at no cost as long as you remain a retired annuitant. If you wish to convert the group life coverage, the Bureau should be advised immediately. Otherwise, the original of Standard Form 56, Agency Certification of Insurance Status, will be forwarded to CSC and a copy will be forwarded to you by the Bureau at a later date.

DESIGNATION OF BENEFICIARY, STANDARD FORM 54, FEDERAL EMPLOYEES' GROUP LIFE INSURANCE ACT OF 1954

Designation filed:

- ☒ No, but not necessary as beneficiary will be in order of precedence used by United States Government, i.e., (1) widow or widower, (2) children, (3) parents, etc.
- ☐ Yes; beneficiary designated as _____
This designation is being forwarded to CSC and it will remain valid unless changed or canceled. Contact CSC for any change desired following retirement.

FEDERAL EMPLOYEES HEALTH BENEFITS ACT OF 1959

- ☐ Records show you elected not to enroll
- ☒ Records show you enrolled in the following plan:
- ☐ Government-wide Service Benefit Plan (Blue Cross - Blue Shield)
 - ☐ Government-wide Indemnity Benefit Plan (Aetna Life Insurance Company)
 - ☐ Comprehensive Medical Plan
 - ☒ Special Agents Mutual Benefit Association (SAMBA)

Note: The life insurance you have under this plan will continue in force for 6 months following your last semiannual premium payment. If you desire to continue the protection beyond that time, you may do so without a physical examination. You may elect to continue up to age 70 at group rates half of the total amount of your SAMBA life insurance and you can, if you wish, convert to a regular policy up to 50 per cent of the original total; at age 70, you may convert the remaining 50 per cent. Your desires in respect to your SAMBA life insurance at retirement should be communicated in writing to SAMBA, 1720 Massachusetts Avenue, Northwest, Washington, D. C. 20036. If you have Dependents Group Life Insurance, this will continue until the next semiannual premium is due (1/10 or 7/10), with a 31-day grace period. You may convert the insurance on your spouse to an individual policy with The Prudential Insurance Company of America without a medical examination. The premium will be the same as if your spouse applied for an individual policy at that time. You may make the necessary conversion arrangements through the nearest Prudential Office.

Unless you cancel your present enrollment, you will remain under your health benefits plan after retirement, and your enrollment will be transferred to CSC. The cost of your share of the plan will be deducted from your annuity by CSC.

Enrollment of an employee who dies while he is enrolled "for self and family" continues for his family if at least one family member is entitled to an annuity as the survivor. If the survivor annuitant is the only eligible family member, the retirement system will automatically change the enrollment to "self."

The original of Standard Form 2810, "Notice of Change in Enrollment Status," will be forwarded to you by the Bureau at a later date.

SPECIAL ACCIDENT AND TRAVEL INSURANCE (SATI)

If you are a member of SATI, after your retirement you may continue but not increase coverage up to a maximum of \$25,000.00 at the rate of \$2.25 per thousand. If you have coverage on your wife and children, it will continue only until the next premium is due, and cannot be renewed. Further information on SATI can be secured by writing Parker and Co. of D. C., Inc., 1001 Connecticut Avenue, N. W., Washington, D. C. 20036.

Dear Mr. Hoover:

As I wish to avail myself of the benefits of the Civil Service Retirement Act as amended by Public Laws 89-205 and 314, I herewith ask to be placed in retirement status at the close of business December 29, 1965. As I will have three days of annual leave due me at that time, for this calendar year, I request that my active duty status cease at the close of business December 23, 1965. Enclosed is executed Form SF-2801.

Having been in the Bureau for nearly 25 years, I have made this decision with difficulty. I know that there is much I will miss after being separated from the service -- the absorbing interest of the Bureau's work, the daily association with the finest personnel to be found anywhere, and your own leadership and direction. Were it not for a question of personal health, my decision would be to stay on to participate in the activities which, I feel, will materialize from our work in the field of criminal intelligence.

You may be sure that, as long as I live, I shall remember with fondness and a touch of nostalgia my years as a Special Agent of the FBI, and that I shall continue to hold you and the Bureau in the highest esteem.

Yours truly,

Richard C. Thompson

(READ BEFORE INTERVIEWING)

The exit interview, to be beneficial, must be conducted as promptly as possible after receipt of resignation. Where it involves a clerical employee, it shall be conducted by the Agent supervisor under whose jurisdiction the employee works. Where it involves a Special Agent, each SAC shall personally conduct the exit interview. In the absence of the SAC, the exit interview should then be conducted by the official in the field office who is acting for him. In every instance the exit interview form shall indicate the name of the official who actually conducted the interview and the form must be signed by him on the reverse side in the space provided. There are to be no exceptions. The interview should be conducted in adequate privacy with adequate time. It should be designed to supplement resignation, to obtain real, motivating reason for resignation, to serve as basis for: (1) accurate analysis of turnover, (2) determining necessary or desirable organizational improvements, and (3) permitting a recorded recommendation regarding future reinstatement. Many times, an exit interview, properly and promptly conducted, results in saving a valuable employee. On involuntary separations, the exit interview is designed to record the reason and any pertinent comments, it being assumed the recommendation would be unfavorable for reinstatement.

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee RICHARD C. THOMPSON Title Special Agent GS-13
Rating Period: from 9/11/65 to 12/29/65

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

RATE ITEMS AS FOLLOWS:

- + Outstanding (exceeding excellent and deserving of special commendation).
E Excellent.
✓ Satisfactory (good or very good).
- Unsatisfactory.
O No opportunity to appraise performance during rating period.

Guide for determining adjective ratings:

- "Outstanding" adjective rating requires (A) that all elements be + and (B) that each and every rated element be factually justified by narrative details, including reasons for considering each worthy of Special Commendation and be attached to FD-185a.
- "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
 - Any element rated "Unsatisfactory" must be supported by narrative comments.
 - An official rating of "Unsatisfactory" must be supported in writing stating (1) wherein the performance is unsatisfactory, (2) the facts of the (90-day) prior warning, and (3) the efforts made after the warning to help the employee bring his performance up to a satisfactory level and must be attached to FD-185a.

SUBJECT: FRANK PETER BALISTRIERI

JUNE

Re MI telephone calls to Bureau and Bureau telephone calls to MI 10/18/66 and 10/19/66.

On the evening of 10/18/66 retired SA ALEXANDER P. LE GRAND telephonically contacted SAC, Milwaukee to advise he and retired SA RICHARD C. THOMPSON had been requested to appear 10/19/66 at Springfield, Ill. and the two were departing by automobile that night for Springfield. LE GRAND just wanted to check with the office as to any objection from the Bureau to their appearance. He was advised that their appearance as retired FBI personnel is in the hands of the USA and they should resolve their appearance with the USA. LE GRAND advised they would appear and, if called upon, would testify in a straightforward, truthful manner and handle themselves as former FBI agents.

Attempts to contact USA JAMES B. BRENNAN concerning previously authorized travel of SAs JAMES E. MC ARDLE and [redacted] and SE [redacted] to Springfield for testimony were unsuccessful and stops were left for USA BRENNAN to contact SAC, Milwaukee. USA BRENNAN was contacted at approximately 6:30 a.m. 10/19/66 and was advised that above Bureau personnel would reach Springfield about 10:39 a.m. that morning.

Review was made a.m. of 10/19/66 concerning data furnished to the Dept. in the [redacted] case, including communication dated 10/28/61 referring to information re [redacted] apartment, including data re IRS matters. IRS had obtained warrant and had seized this information from [redacted] apartment along with other evidence. IRS had attempted to incorporate this material in

information presented to a Federal grand jury and the information had been suppressed. Current indications were that questions would be raised by the defense in the tax case in Springfield concerning this information. It was expected that retired SA JOHN A. HOLTZMAN might be questioned in this area. Accordingly, after discussing this information with the Bureau, USA BRENNAN was contacted at Springfield and it was fully discussed with him. It was emphasized that this information is not pertinent in current proceedings inasmuch as it was suppressed before the grand jury previously in the IRS case. It was pointed out to him emphatically that USA BRENNAN and his staff should immediately and most vigorously oppose any attempts by the defense concerning questioning of this information in view of its prior suppression and non-pertinence in the present matter. USA BRENNAN advised he was aware of this information, appreciated the reminder concerning its prior suppression and advised that the approach noted above would most certainly be taken concerning any questions pursued along these lines. He advised he would do his best to keep SAC, Milwaukee advised concerning developments in this regard.

Pursuant to call from Bureau, review of available material was made afternoon of 10/19/66 as regards. (1) [redacted]

involved in [redacted] cases and (2) from [redacted]

Review confirmed that there was one [redacted] in each of [redacted] cases and that [redacted] case. The [redacted]

[redacted] HOLTZMAN refused to answer the question after the court inquired as to whether he understood the question, at which point a recess was called until after lunch. According to SA [redacted] information from [redacted] during the mid-day period reflected a discussion was had between the Departmental lawyers and the defense and an arrangement was proposed in which the Govt. would drop count #1 of the indictment (conspiracy) and on the other side no further inquiry would be made by the defense concerning [redacted] and the Govt. would admit that [redacted] which went only [redacted]. Under the arrangement the defense would not make trouble for the [redacted] such as a civil suit or procedures of that nature.

According to SA [redacted] USA BRENNAN and others were discussing this arrangement with the Dept. for approval. Therefore, the active FBI personnel will be held over until the situation was resolved and the retired FBI personnel would also be held, and Mr. HOLTZMAN had already been excused.

Subsequently, on 10/19/66, pursuant to Bureau telephonic inquiry re information received that retired SA HOLTZMAN had possibly given an approximate number such as 24 as to number of Bureau personnel participating in electronic surveillances in instant matter, action was taken to resolve whether or not HOLTZMAN actually did state a specific number of Bureau employees involved and also whether he volunteered such information or same was elicited from him by questioning of defense counsel. SAC, Milwaukee telephonically discussed this matter with USA BRENNAN at Springfield who advised that HOLTZMAN had not stated a specific figure but that the questioning had arisen when Attorney [redacted] referred to a document recalled by the USA as a log and queried HOLTZMAN concerning the name appearing at the bottom of the log. As to the significance of the name, [redacted] elicited from HOLTZMAN that the name would indicate that individual was participating in the

USA BRENNAN stated [] was trying to make the point that a number of personnel had access to the coverage information and could have provided same to IRS. Therefore, the Govt. could not easily say that IRS did not receive assistance through this medium.

b6

USA BRENNAN advised that HOLTZMAN was asked how many FBI personnel would have been involved and stated he did not know prior to [] bringing out the alleged number of personnel involved. USA BRENNAN stated definitely that HOLTZMAN did not provide any specific figure.

b6

USA BRENNAN advised they were discussing the situation with the Dept. He stated they do not want to call the active SAS as the judge has indicated he will make them testify re [] in [] since this would affect the credibility of the witness. USA BRENNAN also noted that they may ask the [] [] which may have a connection with instant case. He stated they did not desire that this information be brought out openly in court but might have to be discussed with the defense counsel in chambers.

b7E

In addition to above conversation with USA BRENNAN re number of FBI personnel connected with coverage, re-confirmation of advice previously furnished to Bureau was made concerning the number of FBI personnel listed on logs or other material in the [] and [] cases as being connected with the coverage. This review confirmed that only 22 people were involved. These were 20 agents, 1 clerk and 1 SE. it being noted, however, that 2 of the currently listed SAS, [] and [] were actually clerks at the time they participated. The other clerk listed was [] who resigned as a clerk. The above, of course, pertains to BALISTRIERI. Personnel connected with [] coverage are recalled by current SAS as retired SA [] SA ALBERT B. The reasons for use of these personnel were: the extended period of coverage, 3/9/64 - 6/3/65, 15 months; 16 to 18 hours coverage per day 7 days per week, involving 3 hour shifts, utilizing 1 to 2 persons each shift for actual coverage; necessity of utilizing SA personnel weekends, holidays and sometimes during regular work week because of limited non-agent personnel to monitor; necessity to use agents when non-agent personnel not available due to sick leave, annual leave and other absences, the same situation applying to absences of agent personnel; the fact that clerks were not authorized for use on the monitoring until June, 1964 and the fact that the 3 then clerks utilized were actually assigned to chief clerk's office duties and rotated on monitoring duties, with only 1 non-agent personnel working full time on monitoring (SE [redacted] 9 of the SAs utilized were either full or part time on hoodlum and related cases, including the sound agent, and were carrying full case loads; SA [redacted] utilized because of broken leg and on crutches, and SA [redacted] a hoodlum case SA, utilized on monitoring due to limited duty status because of back trouble; other SAs than AR case SAs necessarily used because of other administrative and investigative responsibilities of

regular AR SAs; general heavy volume of office criminal squad work which made it necessary to utilize practically all SAs on criminal squad at one time or another due to specials, annual leave, sick leave and other absences of regularly utilized AR SAs. The foregoing appear to be primary reasons which made it necessary to utilize the 22 personnel used re this case.

Subsequently, during late a.m. 10/20/66, Mr. [redacted]

[redacted] (SAC contact) telephonically advised SA [redacted], had been called by USA BRENNAN from Springfield who inquired, (1) what [redacted] did to FBI extending from BALISTRERI's office to Milwaukee Office, and (2) what type arrangement did [redacted] have with FBI when [redacted] advised he had told [redacted] to answer USA BRENNAN that there were [redacted] to FBI.

[redacted] to a definite answer. [redacted] requested that the SAC call him back as soon as possible re this problem.

After discussing the matter with Bureau, Mr. [redacted] was telephonically contacted by SAC, Milwaukee and advised that SA [redacted] had brought the problem to SAC's attention. specific reason they might have been used.

On 10/20/66 news reports referring to HOLTZMAN's testimony on 10/19/66 indicated HOLTZMAN stated he knew nothing about the illicit FBI eavesdropping on a telephone call from BALISTRIERI to WALSH in Feb., 1964. It was noted coverage on BALISTRIERI did not begin until March, 1964. In order to clarify this matter, review of BALISTRIERI logs at Milwaukee disclosed on 3/27/64 log that BALISTRIERI had been heard to place a long distance call to Dearborn 2-7374, Chicago, for Mr. [redacted] called me and ... sign a waiver." [redacted] and pertained only to the BALISTRIERI end of the conversation.

In view of the reference to Feb., 1964, USA BRENNAN was contacted telephonically by SAC, Milwaukee and query made as to how this testimony arose. USA BRENNAN consulted the summary of testimony for 10/19/66 and advised that the correct reference was to a log exhibit for 3/27/64 and not to any telephone call in Feb., 1964.

During above conversation with USA BRENNAN, the latter also advised that arrangement being considered by prosecution and defense attorneys re dropping count #1 (conspiracy) of the indictment and proceeding on the tax evasion counts had fallen through. He advised Mr. MITCHELL ROGOVIN and Mr. [redacted] of the Dept. had discussed this matter and now felt that the Govt. should not drop the conspiracy count and, for this reason, it appeared the case had been opened up again as far as the defense calling various FBI personnel. USA BRENNAN stated that the Govt. had been attempting to limit inquiries by the defense to data obtained through electronic coverage by the FBI and to whom such data was disseminated but it now appeared that they were operating more or less at the pleasure of the defense as to how far the questions might be pressed, barring successful objections in court.

USA BRENNAN telephonically advised ASAC J. WALLACE LA PRADE at 11:15 a.m. 10/20/66 that it would not be necessary to put on the stand any additional witnesses from the FBI in connection with this matter. He stated the Govt. was given a choice by the judge of proceeding on the conspiracy charges or proceeding on the tax charges, and the Govt. elected to proceed against BALISTRIERI on counts #2 and #3 which are tax evasion charges. He stated the trial date has been set for Tuesday, 10/25/66. USA BRENNAN added that Defense motion made to dismiss the Govt.'s case had been denied and that a motion made to suppress any evidence relating to electronic coverage had been granted.

Bureau inquired afternoon of 10/20/66 as to conversation SA [redacted] may have had at Springfield with USA [redacted] or other Govt. attorneys relating to [redacted] of [redacted] Bureau's information indicated SA [redacted] may have stated that [redacted] to [redacted] Bureau instructed this be discussed with SA [redacted] and Bureau advised as to what conversation took place.

SAC, Milwaukee subsequently advised Bureau review of this material by SA CARLYLE N. REED indicated there are 134 pages of photographed documents. In summary, they are identified as follows:

The first 78 pages consist entirely of pages of address book containing names, addresses and telephone numbers of individuals, business places, etc. There is one exception in the first 78 pages, page 21 being some notations on a piece of paper mentioning GALLAGHER's (FRANK BALISTRIERI operates a night club by this name in Milwaukee), and the notation of \$200 and \$400 and "total bank," and "Food bank only" appear on this sheet.

Page 79 is bank statement in name JOSEPH BALISTRIERI or BENDETTA BALISTRIERI, Santa Monica Blvd., showing balance in amount of \$20,097.75 (It is noted the knowledge of Milwaukee Office is JOSEPH BALISTRIERI is defendant FRANK BALISTRIERI's father who resides at this address).

Pages 81 through 84 pertain to correspondence re the matter of SCHWERBEL vs. RIZZO, ET AL. This correspondence is from attorneys to multiple addresses, including FRANK BALISTRIERI, and pertains to conflict of interest matters with respect to representation by attorneys and in which correspondents C. Para Corp. and Atomic Industries, Inc. are mentioned.

December 11, 1970

Mr. J. Edgar Hoover

Attention: F. B. I. Laboratory

Dear Mr. Hoover:

I am a retired Special Agent, now on the faculty of Milwaukee Area Technical College in the Police Science Department. One of my classes, which is federally funded in part, is entitled "Training the Evidence Officer". It is an effort to train experienced police officers in making crime scene searches. As both time and materials are available in reasonable quantity, the course covers a broad spectrum of subject matter and affords the student considerable practice so that he may develop the skills he will need on the job.

In contacts with my officer-students, I find that either their chiefs or Village Boards (or City Councils) fail to provide for the purchase of useful supplies and equipment. This is not universally true, of course, but the condition stimulates me to make suggestions and seek out ways to improve their situation without the expenditure of much money.

I note in a reprint from the FBI Law Enforcement Bulletin entitled "Chemical Development of Latent Impressions" that the Bureau offers diagrams "for the construction of the iodine gun or fuming cabinet". In my opinion it would be useful to each student to have diagrams of both, as I am sure that their participation in my class has stimulated their interest in the collection of evidence and will encourage them to expand their departments' facilities. I have 20 students in the course this semester and will have 20 in the next. I would therefore appreciate 41 copies of each of the two diagrams (one for myself) which would be passed out as being furnished to their agencies through the courtesy of the FBI.

I would also like information concerning the packing of broken glass in sheets of styrofoam. There are types of insulation made in approximately 5/8 inch thick sheets which should serve very well for packing larger glass fragments to avoid breakage. My question is whether the material has any adverse effect on the broken edges of glass or whether it is a good replacement for cotton batting.

Very truly yours,

EX-114

Dear Mr. Thompson:

This is in reply to your letter of January 16, 1969, concerning the Uniform Crime Reporting Program.

With respect to changing methods of recording crimes by police agencies, this is taken into account in the processing of crime trends. My staff reviews individual agency reporting five times a year. Any unusual increase or decrease in any crime classification is made a matter of inquiry with the reporting agency. When these changes are determined to be due to improvements in reporting or records keeping, that agency's crime figures are removed from national trends.

One of the historical problems in the collection of crime statistics in the United States has been the wide variation in state statutory definitions of crime. For this reason national standards had to be established and are set forth in the Uniform Crime Reporting Handbook. Police agencies contributing to Uniform Crime Reports by and large make a diligent effort to adhere to these national standards and ignore state statutory definitions.

NOTE: Thompson was employed as a Special Agent from 2/3/41 until his retirement 1/3/66. His services were rated as Excellent. He is on the Special Correspondents List.

Mr. Richard C. Thompson

Failure of some departments to report regularly is not a factor. The fact is crime reports are received from police agencies representing over 92 percent of our national population. Virtually every municipality of any size is an active participant. The only incomplete reporting of any size is the rural South. For additional information on this subject matter your attention is invited to my statement appearing in the June, 1968, issue of the FBI Law Enforcement Bulletin. Your attention is also invited to the narrative appearing in Uniform Crime Reports - 1967 beginning on page 53.

I hope the foregoing information will be of assistance to you.

Sincerely yours,
J. Edgar Hoover

Mr. J. Edgar Hoover, Director
Federal Bureau of Investigation
Justice Building
Washington, D. C.

Dear Mr. Hoover:

I am a retired Special Agent now engaged in teaching at Milwaukee Technical College, a city-operated junior college and technical school. We offer a 2-year course to police officers and those who desire to become police officers. It is a good, sound course similar to those offered in numerous junior colleges, particularly in California. Our program does not conflict with police training, as given in police schools operated on a departmental or other basis. In fact, about 50% of the credits required for graduation are in non-technical subjects which seek to broaden the outlook of men who have had no general education beyond high school. Enrollment has approximately doubled each year since the program was instituted in 1965, and we now have more than 200 day students plus 150 in night courses. I teach two police subjects in addition to a course in American National Government.

I am writing this to ask for any assistance you may give me relative to Uniform Crime Reporting. I must say, first, that I am grateful to be on the mailing list which supplies me with the annual and quarterly reports (as well as the FBI appropriations publication and The Law Enforcement Bulletin). I find them very useful.

I have noted, during my tenure here, that an accusation is occasionally made in textbooks, periodicals, and speeches, that crime statistics are unreliable. Of course, even the U. S. Census is unreliable, in that it is not perfect; yet people use it in a practical way to great advantage. I believe firmly in the general validity of the Uniform Crime Reports, but I would like to know factual answers for some of the criticisms which, I feel, are irresponsibly made. It is said, for example, that Uniform Crime Reports do not take into account 1) changing methods of recording crimes at the police department level, 2) differences in classifying offenses from state to state, and 3) failures of some departments to report regularly.

I would appreciate learning whether the Crime Records division makes allowances, when processing the raw data, for any of the variables listed above, and by what means they do so. I would also appreciate copies of any printed matter, including instructions issued to local law enforcement agencies, pertaining to the submission of crime statistics.

Please be assured of my continued loyalty to yourself and to the Bureau and accept my sincere thanks for your assistance.

Dear Mr. Hoover:

I wish to acknowledge with thanks and an expression of my true appreciation the publications which I recently received from the Bureau for use in a course for working police officers. Among them were several I had not seen before. All of them will be very useful in the classroom.

In response to your suggestion, I will in future contact the Milwaukee Office for additional copies. I shouldn't like you to think that there has been lack of communication between SAC Hayes and myself, as that would not be true. In fact, SA [] who coordinates police training, has been very helpful. But, perhaps for sentimental reasons, a retired agent does like occasionally to go directly to the well for water.

Best wishes for all of 1971 to you and all Bureau personnel.

ATTENTION: F.B.I. LABORATORY

Dear Sir:

I am a retired agent, now teaching in the Police Science Department at Milwaukee Area Technical College. One of my courses deals with crime scene searches and the proper collection of evidence. The course is federally funded, and all students in it are law enforcement officers. As the teacher, I feel the necessity of reading the literature in this field and of being cognizant of new methods. Therefore, when I recently re-read "Crime and Science" by Jurgen Thorwald, I was intrigued by a passage in Part II, Chapter 25 (pp 405-406 of paperback edition by Harcourt, Brace and World, Inc., New York) which describes the removal by German Police of almost microscopic clothing fibers from a tree by means of tape. The same method was also used to remove such fibers from the hands of the murder victim.

Realizing that fastening hairs, fibers, and fragments to tape (when they could be collected and placed in a druggist's fold), breeds problems for the laboratory examiner, and is, I believe, considered bad practice, I wondered whether the use of tape to gather almost microscopic traces has been accorded any acceptance here.

Would you feel free to comment on this topic? I would be interested to know what kind of tape would be most useful, if indeed the method is practical at all.

Very truly yours,

Richard C. Thompson

Dear Mr.

I really don't like to burden you with a matter that may seem insignificant to you, but I decided to write because the matter is significant to me.

I became a Special Agent on Feb. 3, 1941, and retired on Dec. 30, 1965. I remember my credential number as 1757.

At the time of retirement I had 90 days of annual leave due me (all of which, I believe, had accumulated during World War II). With the accrued leave my service exceeded 25 years. Yet, because I was paid for my annual leave in a lump sum, my service was held to be less than 25 years. As a result I did not receive the 25 year key -- which has always disturbed me.

Is it possible for me to purchase the 25 year key? As far as working time is concerned, I put in the 25 years. My accrued annual leave would have extended my service to March 30 -- had I not been paid off in a lump sum.

I say with sincerity that I would like to buy a 25 year key.

I am a member in good standing of the Society of Former Special Agents of the FBI. I contributed substantially to its Legal Defense Fund, which has assisted Special Agents as well as former agents. I consider my tour of duty with the Bureau the high point of my mature career.

Sincerely,

Richard C. Thompson

Letter from former SA Richard C. Thompson to Mr. Rarity, 7-27-86
Re: 25-YEAR ANNIVERSARY KEY

ADDENDUM: ADMINISTRATIVE SERVICES DIVISION (ASD) JMW:GW 8-18-86

ASD has carefully reviewed this request from former SA Richard C. Thompson to purchase a 25-Year Service Award Key. According to Mr Thompson's personnel file, he EOD 2-3-41 and retired 1-3-66, one month prior to his 25th anniversary. His retirement was optional.

A review of the records in the Performance, Recognition and Awards Unit (PRAU), ASD, fails to indicate that a service award key has ever been presented to, or sold to, an individual who has not completed the appropriate number of years for such recognition. Further, if an individual is on leave without pay (LWOP), the presentation of the key is delayed until such time as they return, and if appropriate, the time of their adjusted EOD. If the employee should resign while on LWOP, the key is not granted.

The PRAU does allow for the purchase of replacement keys if the initial keys have been lost, stolen, etc. However, in each instance, personnel files are reviewed to ensure they are qualified for the key they are requesting.

On a few occasions, the PRAU has had requests to purchase keys from employees who are retiring or resigning prior to specific anniversary dates. These requests have been consistently denied. In this regard, the Department of Justice was contacted and they advised that they did not believe it advisable to start selling keys to individuals who are not eligible for such. Service awards, whether they be keys or plaques, were designed, and policy established for presentation of such, to honor FBI employees for their dedicated service for certain periods of time, i.e., 10 years, 20 years, etc.

It is noted that in his letter, Mr. Thompson states that at the time of his retirement he had accumulated 90 days of annual leave for which he was paid. He advises that because he was paid for his annual leave in a lump sum, his service was determined to be less than 25 years. The PRAU is of the opinion that since Mr. Thompson was paid for this annual leave, it has no bearing on the manner in which his years of service should be computed.

For the reasons stated above, the ASD is of the opinion that no exceptions to our policy concerning the sale of Service Award Keys should be made.

RECOMMENDATION:

That the attached letter be sent to former SA Richard C. Thompson denying his request to purchase a 25-Year Key.

Dear Mr. Thompson:

In reply to your letter of July 27th wherein you asked if it was possible for you to purchase a 25-Year Service Award Key, the FBI's policy for the presentation of these keys requires its employees to be on the rolls at the time of the anniversary. Since your official retirement date is carried as January 3, 1966, we cannot honor your request.

You may be interested to know, however, that you may purchase a retirement plaque commemorating your years of FBI service. I am enclosing information concerning the plaque and an application for it. Also, the local chapter of the Society of Former Special Agents of the FBI should have information regarding the plaque.

If I may be of further assistance to you, please let me know.

Dear Mr. Thompson:

Reference is made to your letter dated January 13, 1972, concerning the use of tape in collecting minute physical evidence.

In general, the use of tape for this purpose is considered undesirable. The recovery of soil particles from tape is particularly difficult and sometimes requires the use of solvents that may alter the evidence. Fibers may be bleached or discolored by the tape adhesive. Also, the tape adhesive may contaminate particular evidence with substances detectable during sensitive instrumental analyses.

However, there are circumstances in which tape is helpful in collecting evidence. For example in hit-and-run cases tape is a practicable way to remove fibers from large surfaces such as fenders and doors. Ordinary masking tape is satisfactory. After picking up the fibers the tape can be stuck to a plastic envelope. The tape should then be submitted to the Laboratory as soon as possible.
